**You Do Not Cure Constipation You must prevent it**

It isn't like measles—caught—endured—cured—never to return. Constipation can be so ever-returning as to become chronic. The best way to be free from it, is to prevent its recurrence by removing the cause. Salts or pills partly clear the bowels but do not remove the hard secretions that cause constipation. But Par-ol should take these secretions away by softening them, and prevent the constipation returning. One week's Par-ol treatment should amazingly benefit you. Par-ol is a highly refined petroleum oil of unvarying purity. It has a specific gravity of .865 to .870 at 15° Centigrade. Most druggists sell it. Don't accept a substitute—you'll be disappointed—Par-ol—that's the name. \$1.00 bottle is enough for a month's treatment.

**THE Greene Piano**

Is Well Worth Its Price

SOME REASONS:  
Present factory wages are almost equal to both wages and material of pre-war times. Where other products advanced as high as 300%, Pianos advanced in the same period only 20%.

This advance just about covers the advance in wages alone. Materials are still on the advance. Piano prices cannot deflate because there has never been any inflation. Piano prices are just where they should have been five years ago. A good piano is indispensable in the home and compared to other manufactured articles is well worth its price. Let our salesmen explain more fully.

**Do you know there are only two methods of Knitting Underwear?**

1. One is the method used in the manufacturing of "CEETEE"—knitted on full fashioning machines, which "knit-to-fit"—used only by Turnbull's, and by no other underwear manufacturer in Canada.
2. The other method is that of knitting on circular knitting machines, such as are used by every other manufacturer of knitted underwear in Canada—also by Turnbull's, for their other lines.

Good appearance, wonderful softness, ease and comfort in fit, with quality always first, the best yarns, the most modern process of manufacture—are embodied in all Turnbull's Underwear.

For over sixty years Turnbull's have specialized in the making of high grade knitted underwear in Canada.
