W. WEIGEL, of Seattle, who says he had no idea anything on earth could do for him what Tanlac has done. Declares he has gained 30 pounds and that his health has been completely restored.

"I had no idea that anything on earth could do for me what Tanlac has done, and I just feel like telling everybody I see about this wonderful medicine," said Wm. Weigel, 2602 Third Ave., Seattle, Wash., with the widely-known New Washington Hotel.

"When I began taking Tanlac," continued Mr. Weigel, "my condition was so rundown that I could not work. I was never hungry, and my stomach was so disordered that the little I forced myself to eat disagreed with me. My kidneys bothered me, and the pains across my back were so severe that when I tried to bend over and straighten up again it would nearly kill me. I had splitting headaches and such dizzy spells at times I would almost topple over. Then to make matters worse, I began to suffer with rheumatism in my legs. I was nervous, weak and listless, was rapidly losing weight and strength and seemed to be going down hill every day. I began to improve after the first few doses of Tanlac. I seemed to feel better each day as I continued the treatment. In a few weeks I was like a brand-new man. Now I have a big appetite, eat anything I want, enjoy every mouthful and I don't suffer in the least afterwards. I sleep like a child every night and feel just fine on arising in the morning. I haven't a pain about me, my strength has been wonderfully increased and I have actually gained thirty pounds. "If anybody doubts this statement, just tell them to see me and I will give them the names of some of my friends who will verify every word of it."

Tanlac is sold in Kingston by A. P. Chown, in Mountain Grove by James McDonald, and by the leading druggists in every town.—Adv't.

Kingston and Vicinity

Baptism Service at Chalmers. There was a Baptismal Service in Chalmers church at the Sunday morning service, when the infant of four children were presented for the ordinance.

Old Distillery is Sold. The Wisser distillery at Prescott, one of the oldest in the province, has passed into the hands of Montreal interests who have increased its capital to \$3,000,000.

Smallpox Supervision Over. After eight days of strict medical supervision the smallpox outbreak in Morrisburg has been ended. The schools and other public places will be reopened on Monday.

Litter of Twenty Pigs. Last spring a sow belonging to R. J. McGovern, township of Oxford, gave birth to four lambs, and this fall a sow on the same farm gave birth to a litter of twenty pigs.

Passed Around the Hat. Collection plates were rather scarce at the mass meeting held at Dr. Grenfell at the Grand Opera House on Sunday afternoon. In the balcony the ushers passed around the hat.

Favor Memorial Hospital. Perth war veterans are in favor of the erection of a hospital in that town as a war memorial. It is proposed to purchase the residence of the late J. G. Haggart, for conversion into a hospital.

Many Out Anting. The country looks really grand these days. The farmers have begun plowing but the ground is quite baked. The roads are splendid for anting and on Sunday the roads out of the city were thronged.

Hunters' Guns Returned. A number of guns, seized by local game wardens last month, have been returned to the owners. The firearms were seized at Cataract creek. The owners evidently were able to show that they had not been violating the law.

Crete, Police Village. At the coming session of the legislature application will be made to have Calabogie raised to the status of a police village. R. W. Fleishman, manager of the Carswell store, is

taking the leading part in the movement.

Appeal Against Low Assessments. At the Cobourg assessment court of revision, in November, the assessments of forty properties will be appealed as being too low by a ratepayer of that town. Included in the list are properties owned by some of the members of the town council.

May Lose An Eye. Struck by the back-fire of a rifle while shooting at a mark in the vicinity of Bishop's Mills, Harry Lingstaff, Kamptville, received injuries which may result in the loss of an eye. He was struck in the eye and cheek by burnt powder and pieces of the cartridge.

Queen's Alma Mater. The meeting of Queen's Alma Mater Society on Saturday evening was very brief as the only business on hand was the presentation of reports of the Journal by last year's business manager, K. Keill, and the present business manager, S. A. Wallace.

Belleville Man Injured. At Belleville, on Oct. 22nd, an auto was overturned on Front street, resulting in serious injuries to Thomas Ramsay, one of the occupants. Two other men in the car escaped with slight bruises. Too sharp a turn of the car caused it to go over. The auto was somewhat damaged.

Rain Is Needed. Kingston had its first rain on Monday in several weeks. Farmers state that the country is in great want of rain as it is needed to help out the plowing. One farmer stated to the Whig on Sunday, that he had been unable to do any plowing as yet, owing to the fact that the ground was too hard.

Special Music at St. Luke's. Special music was rendered at St. Luke's church Sunday evening, the anthems, "Hark, Hark, My Soul," (Shelley), and "Now the Day is Over" (Mars), being splendidly sung. The soloists were Mrs. P. A. Bell, Mrs. H. Horton and Miss N. Prince. B. Couper was in charge of the programme.

Meet Financial Obligations. At a meeting of the directors of the Kingston Agricultural Fair Association, held on Saturday evening,

from the capital for about five weeks, will visit all the leading centres in the four western provinces and will speak on behalf of the government candidate in Yale, B.C. He will address, all told, about 40 meetings.

CHILD WHO FELL FROM TREE UNCONSCIOUS 160 Hours. London, Oct. 25.—George Hevey, 9-year-old son of J. P. Hevey, 70 Albin street, is unconscious in St. Joseph's Hospital, as a result of falling from a tree Monday morning, and has never rallied. The doctors are

puzzled and cannot understand the case. Hevey has been unconscious for 160 hours.

England defeated Ireland in the international football match Saturday by 2 to 0.

Elimination of American Middleman in British Canadian Business Urged. London, Oct. 25.—The movement for direct trade between British and Canadian merchants, in place of the sale of British goods to Canada through New York and the purchase of Canadian goods in the same manner, is rapidly gaining strength in Britain. It has now received the active support of the British Department of Overseas Trade, which, in a letter to Mr. J. C. Weis, agent-general for British Columbia, says it has received a report from its senior trade commissioner in Canada to the effect that Canadian firms are reluctant to transact business with British firms through American channels. The department states that many British firms appointed agents in the United States when the trade with Canada was small, and they have not yet seen fit to make a change. The department is now urging these firms to deal direct, and has evidence that many of them are already reconsidering the situation.

The movement is also being taken up by the British Empire Producers' Association, the Federation of British Industries, the British Manufacturers' Association, and a number of daily and trade publications. The result is apparent from the stream of letters from British manufacturers already received in the office of the agent-general for British Columbia, with whom the movement originated, asking for the recommendation of good Canadian agents and in the establishment of direct branch offices in the Dominion by other firms, as was recently pointed out by your correspondent.

It is urged that the campaign can be made absolutely effective if Canadian boards of trade will prepare lists of British firms which still insist on transacting their Canadian business through New York, and make direct representations to them regarding the inadvisability of this practice, which is in its essence inimical to the growth and permanence of Empire trade.

PREMIER MEIGHEN SPEAKS IN WINNIPEG Starts His Western Tour of a Month—To Address Forty Meetings. Winnipeg, Oct. 25.—Right Hon. Arthur Meighen tonight will open his first political tour of Western Canada since his accession to the office of Prime Minister of the Dominion. He was joined at Port Arthur by Dr. R. K. Manion, P., and at Winnipeg by Hon. J. A. Calder, the president of the privy council. The premier's journey in the four western provinces will be a notable one for several reasons. It is not undertaken in anticipation of an appeal at an early date to the electorate, but simply to permit the new leader of the government to meet and speak to the people of the west. Mr. Meighen goes to the section of the country in which the farmers' movement has reached its greatest strength and the free trade agitation is most widespread to preach the doctrine of moderate protection to ensure diversity of industries and employment for industrial workers in the Dominion. With him goes Hon. Mr. Calder, formerly one of the leading Liberals of Saskatchewan, who is quoted as having said in a recent interview in Regina that the time had come for "politics from the shoulder." The prime minister will be absent

arrangements were satisfactorily made to meet the financial obligations arising out of the September fair. The deficit amounts to \$4,000, and in order to pay it off the directors gave a joint note.

Asked for Coal Money. Mr. Keene, speaking on behalf of subscriptions for Dr. Grenfell, at the Grand Opera House on Sunday afternoon, referred to a story in the Toronto Globe on Saturday, which had reference to the large amount of money the citizens had saved on their coal bill this fall, owing to the mild weather. "We are asking that you give some of the money you are saving on your coal to this campaign," said the speaker, whose point made a big hit, and met with a liberal response.

Addressed Students. Dr. Grenfell addressed a large audience of professors and students in Grant hall Saturday morning. Principal Taylor presided and introduced the noted medical missionary as "Grenfell of Labrador." The speaker told the story of his work among the natives of Labrador in a simple and interesting manner, and referred to the great voluntary work that is being done by many noted medical men, some of them graduates of the best medical colleges of England and the United States. He made reference to one of his assistants, who was a graduate of Queen's, being medallist in surgery of his year, and who is now doing missionary work in Manchuria.

Classical Concerts. The trustees of Queen's University have again voted an appropriation for art, and a series of picture exhibitions, lectures and concerts is being planned. The directors of the Hamilton Conservatory have been invited to give a series of five concerts, including trio, piano, violin, and violoncello music. In response to a widely expressed wish, the committee have invited J. Campbell-McInnis (baritone), the distinguished ballad-singer and exponent of Bach, to give a vocal concert, at which Senor Guerrero will also appear. After the historical concerts of last season, which gave selections from the great masters, Messrs. Hambourg have drawn up a programme which will give some of their masterpieces in full. As the trustees wish to make these concerts a means of enjoyment for the whole community, the prices have been arranged to allow of no profit.

Meat Financial Obligations. At a meeting of the directors of the Kingston Agricultural Fair Association, held on Saturday evening,

from the capital for about five weeks, will visit all the leading centres in the four western provinces and will speak on behalf of the government candidate in Yale, B.C. He will address, all told, about 40 meetings.
