### A FAMILY FOUND IN WANT

As Husband is in Jail for Violation of Temperance

Victims of the Ontario temperance law, that is no respecter of persons, a mother with her three children, one of them a babe of five months, was found on Thursday by a Whig representative in destitute cfrcumstances. The husband, prosector and provider, was forcibly removed by the interwention of the law. No provision was made for their shelter or sustenance, and but for the sympathy and trust of friends they would be suffering from starvation. These facts were

"Did the temperance people assist you in any way?" was asked, and the answer was "No."

"Do you mean to say that there is. no organization for the purpose of looking after helpless ones exposed to starvation and cold through the operation of the Ontario Temperance Act and that no member of the Kingston temperance committees gave you assistance?" Again the answer was "No."

"Nobody came to me when my husband was taken away. He was fined \$500 and given one month in jail, but the \$500 was remitted by the magistrate, for if we had to pay it, all my bedding and furniture would have had to go to the secondhand man and then we would have been worse off than we are now, A friend loaned me \$25, two weeks ago, and I was thereby able to pay the rent, and buy some milk and Brompton ..... 70 bread for the little ones, and the Canada Bread ..... 20 My husband has been away two weeks and will not be back for two weeks more. We were never able to save anything out of his pay, and his pay does not go on while he is North Amer. Pulp .. - 5%

A Whig reporter was informed National Breweries . 61 convicted of a breach of the Ontario Temperance Act and sent to jail. was in destitute circumstances. He went to the address named and found it to be a fact.

A neighbor said : "The position of these innocent ones calls for the stringent condemnation of the enforcement of a law that pretends to be based upon absolute moral right, and to have for its object the moral betterment of all the people. Hundreds of people everywhere were moved to compassion for the victims of drink, but here we find that after having obtained a law and penalties. innocent ones are to suffer with the guilty. The cry of the prohibitionist was protection of the innocent, but here the innocent are to be allowed to starve. In this they are the victims of neglect on the part of the state and of those who are responsible for the laws as they exist and the manner in which they are enforced.'
