BUY LIFE INSURANCE NOW! WHY?
Everyone who is not a prodigal depletes the high cost of living. The high cost of living however means that for the present money is of small value. All authorities are agreed that gradually normal prices will be restored. As soon as the supply exceeds the demand prices will begin to fall. What has this to do with life insurance? Everything.
If you have funds on hand to invest them in life insurance. This is the day of "cheap money". By the time your policies mature, you will have greatly increased in value and you will receive for your cheap money, currency that will doubtless have a greatly increased purchasing power.
There are many other reasons for buying a policy to-day. No other investment is safer and more certain of satisfactory returns. Think it over—now. Decide now to increase your insurance—now!
