Asked for His Reasons

for carrying Life Insurance with The Manufacturers Life, one of our large Policyholders cogently replied:

1st.—In case I do not accumulate a competence, or meet with reverses in business, I know my wife and family will not become objects of charity, as my Life Insurance will supply sufficient funds for their needs.

2nd.—Life Insurance is always the first asset realized on— if at my demise, the time is not opportune to dispose of my other assets, my Executors will not need to sacrifice same to obtain ready money.

3rd.—It is the only way I can make absolutely sure of providing for my dependents.

4th.—It is the very essence of good business.

DE LAVAL ALPHA

THE EASIEST GAS ENGINE TO OPERATE AND CARE FOR

The farmer wants an engine that is simple and reliable, that will do what he wants it to do without constant tinkering and adjustment.

He gets such an engine when he buys an Alpha. The Alpha is a thoroughly practical engine. It is designed and built to do its work day in and day out under the varying conditions it is called to meet on the farm. It is dependable at all times.

One big feature of the Alpha is its low fuel consumption, whether you are using gasoline, alcohol or kerosene, the Alpha is a fuel saver.

THE MAN ON WATCH

Scotland appears to agree with the view that the church in the past has been dealing too largely in negatives, and that prohibitory laws are not the thing to make people sober. With flowers blooming in November, why should fruit not hold up its end? The Portsmouth Philosopher draws attention to the fact that the democratic party, which put liquor prohibition into effect in the United States, has been thrust out.

The Dean of Ontario announces that prayers for the dead are all right. Some churches do not believe it, but they are wrong. Even many good Presbyterians now believe that prayers for the dead are all right.

Portsmouth wants all the privileges that the citizens of Kingston enjoy. They want to use our electricity, our gas and our water. There is nothing backward about "Jimmy" Halliday's constituents. They believe in the old-fashioned quality of neighborliness, borrowing when you can borrow—and of repaying where you have not strayed.

When Kingston audiences loudly encore visiting musical artists, the aforementioned go forth and declare that Kingston is a genuine musical city. Whereas the applause may only show Kingston's desire to get all possible for the money.

Over at Queen's they are now on to the co-eds for holding their tea and sale just before the A.M.S. elections to draw money from the candidates. The ladies are getting to be real politicians.

Have you ever met with the "alarmist" doctor, who fears you have ill that will carry you off if you do not look out. Well, make a study of him, for he's as bad as a quack doctor.

There was no suggestion made before the public service commission that the court house caretaker's position be amalgamated with that of sheriff, or treasurer or clerk. He holds the only safe job up there.

A Scotch legal luminary is declared to have said that it will take more than an act of parliament to keep the Scots from the dram. Here is a quotation that would make an interesting sermon for the chaplain of St. Andrew's Society to preach before the brethren when they go to church on the evening of the 28th. —THE TOWN WATCHMAN.

Three Years of Suffering Quickly Relieved by "FRUIT-A-TIVES"

At this time, a friend advised me to try 'Fruit-a-tives' and I did so. After taking two boxes of 'Fruit-a-tives', I was greatly relieved; and gradually this marvelous fruit medicine made me completely well. My digestion and general health are splendid—all of which I owe to 'Fruit-a-tives'."

Purina Calf Chow

Is Different

- Yes, it's unlike any calf meal on the market. 1st. It's different because it's better. 2nd. Every ingredient is a pure feed of recognized value, no "phony" products of unknown worth. It does not contain anise, or any appetizer. Calves eat it as greedily as they do whole milk. 3rd. It does not scour; blood flour is one of the important ingredients, which insures freedom from scour. 4th. Easy to feed, no boiling, just mix with warm water. 5th. It is balanced just like whole milk. Calves thrive from the first on Purina Calf Chow and it keeps them making gains without sickly periods. It is used by many of the best dairy farms in the country to raise the finest calves. 6th. But it is cheap enough to use on any calf, costs less than half as much as milk feeding. So easy to feed that boys or girls are assured of success.
