Let this be said with emphasis: There is no other public service, federal, political or municipal more closely guarded on the financial side than that of the hydro-electric enterprise of Ontario. The system of accounting is scientific, modern and complete. There is a veritable cycle of auditing. The local system's accounts are approved first by the municipal treasurer's department, then by the municipal auditor of the hydro-electric commission's staff, then by the provincial auditor, and finally by an independent private firm, Clarkson, Gordon & Dilworth, Toronto, whose reputation is of the

A Few Smiles. Why don't you attend church?" asked the minister of a non-church-

going-man. "Well, I'll tell you, sir. The first time I went to church they threw water in my face and the second time they tied me to a woman I've had to keep ever since.

"Yes," said the parson, "and the next time you go they'll throw dirt on you."

The minister was at dinner with the Chaffie family, Johnny spoke up and said: "Can a church whistle?" "Why do you ask Johnny?" inquired the preacher kindly.

"Because Pa owes \$12 pew rent and he says he is going to let the church whistle for it." After the preacher had taken his departure there was a vocal solo by Johnny.

Mr. H. Maxwell, Woodhouse. Alta., writee: "I was in the army when I got heart trouble. The two doctors told me there was little hope for me to get better. I have doctored with other doctors, but with no relief. A year ago a friend told me to try Milburn's Heart & Nerve Pills. I laughed at him at the time, and told him they were only a fake, but as I got worse I thought I would try a box.
