

"I'VE GOT AUTOMOBILE SKATES"

If you ask your friends or anybody else, what kind of Skates they have, you will invariably receive this answer. Most people own Automobiles.

Automobile Model "C."

- A Few Reasons Why Automobiles Are Better:**
- (1) They are made from the Special Chrome Nickel Steel used in parts of high grade Automobiles, where strength and lightness must be combined.
 - (2) The Blades are tempered hard as glass and take a very keen edge, but are not brittle, which renders the blade practically unbreakable.
 - (3) The Aluminum Tops are also made from the same grade of aluminum alloy as used in the crank cases of the better motor cars.
 - (4) And you get a positive guarantee with every pair.

Drop around and see the many, different models. No trouble to show you.

HOCKEY BOOTS

We carry only the better grade of Boots in stock. Get your outfit here. We put Skates on free of charge — rivet or screw. But don't wait for the grand rush. There's sure to be one. Order now, while stocks are complete.

Frontenac County Hockey League

Plans for winter hockey are under consideration of the executive of the Frontenac County Hockey League, and a meeting will shortly be held to arrange the official schedule. The teams this season will be: Sydenham, Pittsburg, Wolfe Island, Verona, Harrowmith and Catarqui, and a most exciting series is expected to result. The chief bone of contention will be the Edwards' silver cup declared for the Wolfe Island team last year, but which the team refused to give up, despite the fact that the trustees' board declared no contest, when the Wolfe Island team failed to provide for the final games, and ordered the cup to be handed over for safe-keeping. Last season the fight was between Verona and Wolfe Island, in the schedule work, indicate a touch of ginger into this great winter sport.

The resolution passed at the end of last season was: "Moved by James Sutherland, seconded by G. B. McKay that the secretary write to the managers of the Verona and Wolfe Island teams stating that the trustees declare no contest for the season of 1929; and that he also write to the manager of the Wolfe Island team and request the return of the cup which will be held by the trustees until the same is completed for under the schedule of 1921; and further that when the trustees of the team are interested in not in fit condition for the final games, the same shall be played in the covered rink at Kingston." In coming to this conclusion the trustees were guided by the decision of the Stanley cup, when Vancouver was chosen as the place for the game, but the team could not play. The Wolfe Island team failed to comply with the request to hand over the cup, and some keen contests are likely to be fought for it this season. In this connection it has been observed that, while some of the teams above mentioned have shown undoubted ability, both as skaters and stick-handlers, there is an unfortunate absence of the test spirit, the ability to take defeat smiling and abide by the adverse decision, trusting to their own ability to retrieve reverses.

WILL IMPROVE COURSE.

Determined Effort to Retain Canadian Henley Regatta. Determined efforts are being made by the Chamber of Commerce of St. Catharines to prevent the transfer of the Canadian Henley Regatta from Port Dalhousie to Toronto or any other place. A committee which has been handling the matter proposes to ask the minister of railways and Canals to remove obstructions and have dredging done in the Welland canal course, and will ask the City Council of St. Catharines for \$2,500 towards repairing the club house and will ask the Port Dalhousie town council for \$500 toward improvements at the lower end of the course. It is believed here that the Canadian Association of Amateur Oarsmen will continue to hold the regatta at Port Dalhousie.

FAVORS THE SNAP-BACK

Says it Would Improve "Big Four" Football. Hamilton Spectator: Sam Manson is of the opinion that the day is not far off when the snap-back rules will be adopted by all the rugby unions in eastern Canada. Manson favors that style of play and feels that it will make the game faster and more open. The uncertainty of heeling the ball makes mistakes more liable than if it were snapped into play," said Manson, "and twelve men on the field could be handled better than fourteen. With the adoption of the snap-back game, the outside scrimmage-players would be eliminated, a move that has been suggested many times under the present rules. It will be remembered that the Tigers practically revolutionized Canadian rugby when they were in the O.R.F.U. and played the snap-back game. Western Canada has started something that I think it is only a matter of time until we will follow."

McGILL WILL NOT PLAY

Meeting Held Last Night Concerning Canadian Finals. Should McGill win next Saturday she will not play off for the Dominion championship. This decision was announced after a meeting of the McGill Rugby Club. The reasons for the decision are the same as those given for several seasons past. Many of the players have to spend every minute of their spare time during the winter season at academic work, and they have absolutely no time to themselves. If the rugby season is prolonged the men's chances at examination time are jeopardized, and the first term examinations are not far off. As athletes receive only a secondary consideration at the college, the season must be concluded as early as possible. While it was practically certain that McGill's decision would be, the executive of the rugby club made the announcement to settle all discussion on the point.

BASEBALL PLAYERS ARE OF MANY NATIONALITIES

Who said America isn't the melting pot. Look over the Brooklyn team. Marquard, who pitched in the series, but who was ousted for his ability as a tickle man, was born in France. Milus, another pitcher, claims Jugo-Slavia as his birthplace; Olson, shortstop, is a Swede; Pfeiffer, catcher, and Kruger and Miller, catchers, are all of German descent; Knoetly, first base, is of Czech-Slovak parentage; Kilduff, second base, is of Russian descent; Cadore, pitcher, comes of Italian stock, and Grimes, pitcher, Sheehan, third base, are respectively of English and Irish descent. To this imposing aggregation of men of foreign extraction on the Brooklyn team, may be added Coveleskie, pitcher, the pride of Cleveland's fans. Coveleskie was born in Pennsylvania, but his parents were Polish. In fact though baseball is generally considered the acme of red-blooded Americanism, perhaps the only man on either of these two championship teams who may justly claim to come of 100 per cent. American stock is Wheeler, Brooklyn's left fielder, who is said to be an American Indian.

Sport and Education. Toronto Globe: "Football is not the sole aim of college life, a fact that seems to be overlooked by the Montreal Herald. Quite true. But if the Herald will delve a little deeper it will find that there are additional reasons for the refusal of McGill to engage in the national football finals. The pursuit of knowledge at Queen's University and at the University of Toronto is quite as keen as at McGill, but neither of these teams tries to "run out" when challenged by the champions of other schools. It is a fact, too, that the football men, in common with the active participants in other branches of college sport, are quite as brilliant students and equally as successful as those whose whole time is devoted to scholarly achievement.

HOMER BAKER DECIDES TO TURN PROFESSIONAL

Homer Baker, winner in 1914 of the half-mile race championship of Great Britain and holder of numerous United States running titles, has announced his intention of abandoning the ranks of amateurs within the next month. He said he was considering several offers to coach and to run in professional races.

Varsity Backs Won.

Montreal Herald: Varsity's back division was again the big factor in their victory over Queen's last Saturday. On the line Varsity had very little over the Presbyterians, but on the back division they entirely out-clasped Queen's. The running of the Blue and White backs was spectacular.

Queen's II Ready to Lick Varsity

With the loss of the two big battles against Varsity looming close on the horizon, the second team, pride and hope of Queen's, is in fine shape for their big battle with Varsity II. When the two intercollegiate championships are fought out on Queen's athletic grounds, the tricolor intermediates hope to live up to their abilities and bring home the honors. "Billy" Hughes is satisfied with the condition and general shape of his pets, but says that he does not want any feeling of over-confidence to reach them. Varsity II is no weak team, in Billy's estimation, and although he thinks that his boys can put it over on them, he does not want the local team to go on the field thinking that they have a lead-pipe cinch. The line-up for the final game will be about the same as that used against McGill II, two weeks ago. McGill came here with a lead of eight points and went home after being defeated by twenty points in the game here. Varsity have a lead of five points, and, according to reports, have a stronger team than the Red and White, so that Queen's will have to stick to their knitting. Unless a miracle is worked in the weather, the field will be in a terrible condition for both games on Saturday. Many local rugby men have expressed the opinion that a field such as the present conditions in weather will produce will make the present day intercollegiate rugby tactics and plays look very ridiculous.

PHILADELPHIA CRICKETERS WILL PLAY IN ENGLAND

The Association Cricket Clubs of Philadelphia have accepted an invitation from the Incorporated Cricket Club of England, which toured this section in September, to visit England next August, according to an announcement made by Sydney Young, secretary of the associated clubs. He has received a letter from Colonel C. E. Greenway, president of the Incorporated Club, thanking Philadelphia for the hospitality shown on the recent trip and wishing continued success for cricket in this country.

The Battles on Gridiron.

More tie games have probably resulted in American football this season than in any previous year. To date there have been seven in the east. Harvard and Princeton played a tie game, 14 to 14; Syracuse and Pittsburg fought to a 7-7 draw; so did Lehigh and Penn State; —Lehigh also tied with West Virginia at the same score. Colgate's first two games resulted in ties with Susquehanna, 9-0, and with Allegheny at 7-7. Wesleyan and New York University scored 13 points each in their game, while Stevens Tech was held to a scoreless tie by Middlebury. Swarthmore and Franklin and Marshall also played a scoreless tie.

American Colonel Gives Free Advice To Rheumatics

SAYS IT'S SHEER POLLY FOR ANYONE TO SUFFER THESE DAYS. Rheumatism can't be cured so long as your system is weak and run down. You must first build up and get strength to fight off the disease. Ferruzone cures because it builds up, because it renews the blood and dissolves the Uric Acid and the poisons that cause rheumatism. It is proved right here that Ferruzone does cure. Col. H. M. Russ, of Edwards, St. Lawrence Co., one of the fine old heroes of the Civil War, was completely restored by Ferruzone. Read his statement: "I couldn't get around without a cane, and then only with difficulty. Rheumatism took complete control of my limbs. Suffering was more intense than hardships on the battlefield. When my doctor had done his best I got Ferruzone. Then came a quick change. Ferruzone gave me comfort at once, eased the pain and took the stiffness out of my muscles. I am well to-day. Ferruzone cured me completely. I can jump and run like I did forty years ago." Be sensible about your case. If your present medicine is useless give it up. Don't experiment again. Ferruzone is known on all sides to be a cure that does cure. Why not get a supply to-day. The sooner you begin Ferruzone the quicker you'll get well. Price \$50 per box or six for \$2.50, at all dealers.

Coming Saturday, Nov. 20th

Special Announcement Later. Watch for it!
