Many Automobile Factories Are Closed Down

SOME ARE RUNNING ONE-QUARTER TIME, AND OTHERS HALF TIME, BUT THE REO MOTOR CAR COMPANY IS OPERATING TO FULL CAPACITY—WHY?

Because they are building a Car of Quality. The following is Proof of This Statement:— Reo dealers from Chicago and Northern Illinois have conclusive answer to rumors that the automobile business is at a standstill by staging the largest drive-away ever made from the Reo plant at Lansing on October 2nd. The production of one day—September 30th—was set aside for the dealers in Chicago territory. There were sixty-three passenger cars and one hundred and fifteen SPEED WAGGONS in the giant parade which left Lansing for Chicago. The great majority of the cars and trucks were handed direct by the forty-two dealers who came to Lansing in two special cars. At a dinner held for the Chicago dealers, the evening before the drive-away, an address was made by C. J. Dillger, President of the Checker Taxicab Co., of Chicago, who declared that the Reo product was the most honestly built, honestly priced car on the market. Giving an interesting account of his various experiences in driving motor cars he declared that he had driven all makes since the first one cylinder motor cars were put on the market, and that he felt himself well qualified to judge the value of a car. Many of the Chicago dealers who paid their first visit to the factory at this time were amazed at the wonderful plant in which their SPEED WAGGONS were built and declared that after seeing the construction of Reo cars they were more than ever enthusiastic over the prospect of selling them. Mr. M. J. Schmidt, who last year held the sales record among dealers of the Chicago Branch, declared that if everyone could see Reos in the making everyone would insist upon Reos for driving.

BOYD'S GARAGE -- Brock Street

AUTOMOBILES

Now is the time to purchase that car for next year, for many good reasons, which we can not only explain, but are in a position to guarantee. For example: we guarantee the price of every new car that is delivered or even ordered, against any decrease in price as far as July, 1921, and in the event of a decrease we further guarantee to refund the difference between the present and new price. Further, we have the best value in the used car line that has ever been offered in this city. Cars were never so reasonable as they are at the present moment. And you will find that the prices have become settled already, and that the purchaser of a real good reliable car this fall will be ahead in the Spring of the year even if he takes into consideration the fact that the car must be wintered. Let us have a talk with you on the matter and think it over. We have the value and it is the best in the city.
