 The sum that would have appeared adequate to protect the home ten years ago is wholly inadequate to-day.  
 If, in those days, \$1,000 was carried, to-day it should be made \$2,000, while five should be increased to ten and, and ten to twenty thousand to maintain the protection at the same point that it reached 10 years ago.  
 Let me suggest a plan for an additional amount.
