## Had Bad Cough For Three Years

The constant hacking, racking, persistent cough that sticks to you in spite of everything you have done to get rid of it, is the kind that is dangerous.

The longer the cough sticks, the more serious menace it becomes to your health.

There is no remedy that will relieve coughs—coughs that won't go—like Dr. Wood's Norway Pine Syrup.

It has a healing and soothing action on the air passages, and at the same time acts as a disinfectant of the respiratory organs, destroying the germs that produce serious lung complications.

Mrs. John Miller, Minburn, Alta., writes:—"I had a very bad cough for three years. I went to several doctors and tried different cough medicines, but nothing seemed to help me. One day a friend told me about Dr. Wood's Norway Pine Syrup, and after using several bottles I became completely relieved. I always keep a bottle in the house, and also recommend it to others."

Dr. Wood's Norway Pine Syrup has been universally used for over 30 years, and so great has been its success, it is only natural that a great many imitations have been placed on the market. The genuine is put up in a yellow wrapper; 3 pine trees the trade mark; price 35c and 50c a bottle; manufactured only by The T. Millburn Co., Limited, Toronto, Ont.
