

SIMPLE MISHAP STARTED POISONED ARM

LIMB SAVED by ZAM-BUK!

"A stab from an ordinary sewing needle started my poisoned arm," writes Miss S. A. Wernicke, of Hilton, B.C. Doesn't this prove again, how easily poisonous infection finds its way into the tiniest cut, scratch or abrasion? Don't run into similar dangers! With Zam-Buk as your everyday healer you are prepared for any injury or skin trouble. Zam-Buk promptly ends pain, swelling and inflammation—it purifies and safeguards the damaged tissues against disease—it means perfect antiseptic healing every time.

In her letter Miss Wernicke says:—"This needle went so far into my finger that it pierced the bone. My hand became so stiff and swollen that I could not use it. I naturally tried every remedy I knew of, but it only got worse. Blood-poison developed and extended right up into my arm. The pain was intense, and I certainly thought I would lose the limb, for it was in a terribly inflamed and swollen state, and literally covered with lumps. A friend advised me to use Zam-Buk which I did, and it was not long before the pain grew less. With perseverance all the inflammation and poisonous matter was drawn out, the swelling and lumps disappeared, and my arm was soon quite well again."

Zam-Buk is a wonderful healer and herbal throughout. No animal fats, no crude mineral drugs such as you get in ordinary ointments. Use Zam-Buk for sore hands, winter eczema, chilblains and frost-bite, also in burns and scalds, ulceration, abscesses, scalp sores, ringworm, and for piles, rheumatism, and swollen joints.

Zam-Buk

FREE BOXES! You can get Zam-Buk from any druggist or dealer at 50c. 3 boxes for \$1.25, or direct from Zam-Buk Co., 80 West St., Toronto. A trial sample will be sent for 1c. stamp if you name this paper. SEND TO-DAY!

Graves of Brave Exiles

A HUNDRED YEARS AGO.

Unrest in England After Napoleonic Wars.

Sir Sidney Lee recalls in the London Daily Telegraph a striking parallel between the social condition of England to-day and the period after the Napoleonic War. The very same language was used. Here is an example from a century-old London paper:

"During the Napoleonic wars, patriotic fervor and the sense of a common danger for the most part checked in England domestic agitation, whether in political, social, industrial, or economic spheres. But no sooner had the Battle of Waterloo brought the prolonged military conflict to a glorious conclusion than political, social, industrial, and economic discontent, which had been temporarily stifled, found trumpet-tongued expression.

"The temper of the middle class, within eighteen months of the stirring victory of Waterloo, may be gauged by the action of the Common Council of the City of London, which, in December, 1816, addressed the Prince Regent in terms like these:

"Distress and misery are no longer limited to one portion of the Empire, and under their irresistible pressure the commercial, agricultural, and manufacturing interests are equally sinking. We can, sir, no longer support out of our dilapidated resources the overwhelming load of taxation. Our grievances are the natural effect of rash and ruinous wars, unjustly commenced and pertinaciously persisted in, where no rational object was to be attained; of immense subsidies to foreign powers to defend their own territories or to commit aggressions on those of our neighbors; of a delusive paper currency; of a long course of the most lavish and improvident expenditure of the public money throughout every branch of the Government."

"Such was the language of responsible citizens. Incendiary agitators improved on its resolute tones. Prophets foretold a social upheaval in England corresponding with the French Revolution of 1789. Yet the storm was in due time weathered," says Sir Sidney Lee. "A peaceful settlement was gradually reached by the conflicting interests. The ingrained respect of the English people for law and order finally rejected extreme counsel, while conservative suspicion of all innovation was overruled."

A Good Silver Polish.

The basis of most prepared silver polish is French whiting, a fine white powder. It is much cheaper to buy the whiting and make your own silver polish. Wash the silver in hot soap suds and wipe it. Lay a paper on the table. Put some of the whiting in a saucer and add enough ammonia or diluted alcohol to make a paste. Rub this over the silver with a soft cloth and lay the silver on a paper to dry. When you have finished this rub the whiting off with a clean soft cloth. Then polish the silver with a chambray skin.

It is easy to be generous of another man's money.

1 Pill a Laxative, 2 Pills a Cathartic, 3 Pills a Purgative

This is the Way Milburn's Laxative Pills Work.

You will never use any of the old griping, nauseating, sickening, purging pills, containing as they do calomel and other drastic mineral ingredients, once you use Milburn's Laxative Pills, a pill that is purely vegetable.

Owing to the great care used in procuring the highest grade of drugs from which they are manufactured, they are as near perfect as it is possible to get a laxative remedy.

They work gently and effectively, without a gripe or pain.

If you are troubled with constipation, biliousness; driven to distraction with sick headaches, if your tongue is coated, your breath bad, your complexion muddied, your eyes yellow, have floating specks before the eyes, jaundice, itching, bleeding or protruding piles, stir up your sluggish liver with a few doses of Milburn's Laxative Pills.

Mrs. Roy Mackie, Orillia, Ont., writes:—"I desire to express my thanks for the relief I have had by using Milburn's Laxative Pills. I had been suffering for some time from constipation and bad headaches. I tried all sorts of cures, which did me no good, until I was advised to try your pills. I got great relief after taking only a few doses."

Price 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Nujol

Regular as Clockwork

The Modern Method of Treating an Old Complaint

Nujol works on an entirely new principle. Without forcing or irritating, it softens the food waste. This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along and out of the system.

It is absolutely harmless and pleasant to take. Try it.

Niobe Is Sold.

One of the interesting deals recently consummated in Eastern Canada was announced by Joseph A. Garson, managing director of the New Brunswick Rolling Mills. It includes the purchase of H.M.S. Niobe and two submarines, the C.C.-1 and the C.C.-2, now at H.M.S. dockyards at Halifax. The submarines will be towed to St. John, N.B., and docked at the rolling mill wharves, where they will be dismantled. It is not yet certain what will be done with the Niobe.

Trans-Canada Air Route.

With airdromes marked out every fifty miles and with wireless control of the planes there would be nothing to prevent a regular forty-hour air service between Halifax and Vancouver, according to Gen. A. K. Tylee, air commodore, who has just completed a trans-Canada flight. Gen. Tylee flew from Winnipeg to Vancouver as a passenger during the recent flight, and was greatly impressed with the possibilities of developing a commercial cross-Canada service.

By using the circulating brine system refrigerator motor truck bodies have been perfected in which less than 10 per cent. of the loading space is required for the refrigeration apparatus.

According to British engineers, by utilizing the available water supply Mesopotamia could irrigate 7,000,000 acres for winter crops and from 1,000,000 to 3,000,000 for summer ones.
