INDIA SUFFERS FROM FAMINE

And the Official News Causes Very Much Concern in England.

London, Jan. 14.—Official announcement that famine exists in several districts in India, made yesterday at the Indian office, has occasioned concern in England. The present scarcity of food in Great Britain's dependency in the east comes at an inopportune time for the government, which is already grappling with serious unrest among the natives. It is realized here that no other single thing could cause greater disquietude in India than grain shortage. The mere mention of famine is freighted with terror for the natives of that country.

Yesterday's statement said that the crops in Punjab, in the extreme north west of the Indian peninsula, are poor. The population of this province is over twenty-five millions. Several other districts mentioned are heavily populated. Even local famines would cause intense suffering, and if the whole country should be affected the results might be terrible, especially in the thickly populated districts.

NEWS OFF THE WIRES IN CONDENSED FORM Tidings From Places Far and Near Are Briefly Recounted.

While sitting chatting with his wife Edmund Hanson, a Wheatley, Ont., general storekeeper, suddenly expired.

OPPOSE GOVERNMENT LIQUOR SCHEME

The Quebec Liberal Members Want Sale Done by Auth- orized Vendors.

Quebec, Jan. 14.—General opposition to the government scheme of taking over the liquor business and controlling it, both as sole importer and having its own retail shops, it was announced today, was voiced at the caucus of about thirty Liberal members of the legislative assembly, held last night. The members, however, were willing to meet the government half-way by agreeing that the government shall do the importing but they want the sale to public to be by authorized vendors. The meeting came after the prime minister, in his speech in the house, had reiterated his determination for immediate and complete control of the business.

New York Welcomes The Returned Balloonists

New York, Jan. 14.—The three United States balloonists, Lts. Kloor, Hinton, and Farrell, were greeted by a great crowd on their arrival in this city at eleven o'clock today. Farrell and Hinton were accompanied by their wives, and it became known that the women had left the city together to greet husbands before their arrival. Farrell and Hinton posed for movie men, walking close together, and smiling at one another. The former said there was "nothing heroic in what the balloonists had done."

Soldier Settlers Return 65 Per Cent. of Loans

Ottawa, Jan. 14.—Soldier settlers on land have repaid the government over million and a half dollars, or sixty-five per cent due on loans on November 1st, according to figures made public today. It is expected the amount will be increased by complete returns from several districts offices. Three hundred settlers have returned to the soldier settlement board to return the amount of their borrowings.

A CENTREVILLE MAN ARRESTED FOR ARSON

Stanley Doupe Charged With Setting Fire to a Farmer's Barn.

Following investigation made by Provincial Fire Marshal Bishop, into a fire which occurred on Christmas morning, and which destroyed the barn of a man named McEwen, near Centreville, with heavy loss of cattle, hay and farm implements, a young man named Stanley Doupe, living near Centreville, was placed under arrest on a charge of arson. He was brought before Magistrate Rankin at Napanee, on Thursday night, and was remanded for eight days.
