Such men are usually hard workers mentally, living, under high pressure, and high draught, and it doesn't take a great deal to disorder the stomach or render the liver torpid. They should make it a practice to use after meals Stuart's Dyspepsia Tablets, and thus avoid the sudden attacks of indigestion. Brain workers will find Stuart's Dyspepsia Tablets a good investment. Pembroke Seeking Mail Delivery.

The numbering of the houses on the different streets, Pembroke, has been almost completed, and the advantage is already being felt. The step was taken on account of the increase in population during the last few years, and Col. H. J. Mackie, M.P., is now striving for a mail delivery system for the town. The population is not as large as the post office regulations call for where a delivery system is to be introduced, but on the other hand the revenue from the local office is considerably in excess of that required.

Renders the Human Body Transparent

Paris, Jan. 19.—A Russian physician, Dr. Wassileff, has announced the discovery of a fluid which renders the human body transparent. Flowers which he treated in the same manner also become transparent, he says, but apparently were otherwise unaffected. Before the war Dr. Wassileff had a laboratory in Petrograd, but he is at present living in Paris. He refuses to reveal the nature of the fluid, but says it is a combination of a number of liquids.
