It's a Case of Gathering EGGS

If you are keeping hens you want them to lay, and especially so during the winter months when prices are good. It is our business to make hens lay: so in our Royal Purple Laying Meal we have put everything necessary to feed the hen and the extra material to produce an egg a day per hen.

Royal Purple Laying Meal

is a correct combination of essential food elements containing wheat, corn, meat, ash, lime, etc. It will pay any farmer or poultryman

to sell some of his grain and buy this perfectly mixed, balanced and tested laying meal. It's use produces eggs—and a profit.

CARS REO TRUCKS

When The Pinch Comes

Certainly no one can fool all of the people all of the time. When Automobiles were few and buyers many, the public had no opportunity to express its verdict. But when enough automobiles became available and buyers could pick and choose, the verdict was immediately apparent. The fact that people continued to buy REOS in trying times was the talk of the automobile industry. The public was not fooled, given the opportunity to select, they chose REO. Nineteen Twenty - one is the sixteenth year that REOS have been placed before the public. Your assurance that the REO will deliver the most in motor satisfaction to you lies not alone in the record for REO success for 1920, but also in the verdict of the public in the fifteen years preceding. All of the experience gained at Reo has remained, and there is no thought but to build the best possible automobile. Born of experience, built by master builders, possessed of every facility, the REO is THE Perfect Automobile.
