

Quaker Minister Is Grateful to Tanlac

Rev. Parker Moon.

Nearly everybody in Southwest Missouri either knows or has heard of the Rev. Parker Moon, who for a full half century has devoted his life and talents to Sunday school and organization work for the Society of Friends or Quakers.

"Uncle Parker," as he is more familiarly known, came from fine old rugged Quaker stock, and there is not a better known or more highly respected citizen in that part of the state. In referring to his remarkable restoration to health by Tanlac, he said:

"About five years ago I suffered a general breakdown. My principal trouble was nervous indigestion. My appetite was very poor and my food seldom agreed with me, and I had to live on a very restricted diet. I suffered a great deal from headaches and dizzy spells; I had severe pains across the small of my back and was badly constipated most of the time. In fact, I was so weak and rundown I was not able to attend to my duties.

"This condition made me very nervous and I could not sleep at night. Frequently I would lie awake most all night and was in that condition more or less for five years. My physician said he could not do anything for me and suggested a

change of climate. I then moved to Texas and went back and forth three times but did not get the relief I had hoped for. Finally, I got so bad off I was not able to get around with any degree of comfort. I was also told I had heart trouble.

"I had read about Tanlac and, as it had been very highly recommended to me, I decided to try it. I got a bottle and had taken only a few doses until I could notice a marked improvement in my condition. I noticed especially that I was not troubled any more with sour stomach after eating, which was a great relief.

"I kept on taking Tanlac until I fully regained my health. My appetite is splendid; I enjoy my meals and I do not find it necessary now to take any laxative medicines of any kind. I can sleep much better and am not nearly so nervous. I take great pleasure in recommending Tanlac to anyone who needs a good system builder, or who suffers with stomach trouble. I have recommended Tanlac to a great many of my friends and am pleased to reach others by giving this statement for publication."

Tanlac is sold in Kingston by A. P. Chow, in Mountain Grove by James Macdonald, and by the leading druggists in every town.—Adv.

ONTARIO HOUSE OPENS TUESDAY

Temperance Act Amendments—Ferguson to Attack the Government.

Toronto, Jan. 24.—The Ontario legislature is scheduled to open tomorrow. In view of this there is remarkably little activity in government circles, and very little legislation has been under course of preparation. So far as the government is concerned the session is not likely to be a lengthy one. Members of the opposition are, however, not inclined to that view. Hon. G. Howard Ferguson, leader of the Conservative wing of the opposition, which has been strengthened by the election of Major A. C. Lewis as member for North East Toronto in place of Hon. H. J. Cody who resigned, has announced in unmistakable terms that he will do some very plain talking when the house meets and that the government will be called upon to answer many questions. Hon. Mr. Ferguson has forecasted further developments in regard to matters concerning the timber limits in northern Ontario which "will be both interesting and surprising to the public."

So far as has been definitely announced, the only important bill which the government is ready to bring forward is one providing for rural credits. Hon. Manning Doberty, Minister of Agriculture, will sponsor this bill which has for its object the assisting of the farmers in the province to secure money at a lower rate of interest than that which they have to pay to chartered banks.

O. T. A. Amendments. Hon. W. E. Ranev, Attorney General, will certainly have amendments to the Ontario Temperance Act. These will be in the direction of making it harder to secure intoxicating liquor, rather than any modification of the act. The attorney-general has already announced himself as being in favor of limiting the amount of liquor which physicians may prescribe to their patients. He also favors limiting the amount of liquor which persons may have in their own homes.

Legislation along these lines is quite likely. In addition to this it would not be surprising if the attorney general introduced an amendment to the O.T.A. providing that standard hotels which sell "near beer" shall be compelled to close their bars on Sundays and at a given hour on week days.

Another measure which Hon. W. E. Ranev will bring before the house will be one curtailing the commissions which may be paid to insurance agents. This will be the direct result of the report submitted by Justice Masten as Insurance Commissioner in which he found that commissions paid in some places, notably in Toronto, were excessive.

Treatment of Prisoners. The attorney-general recently back from a trip to the United States where he has been studying matters affecting the treatment of prisoners, is strong for the establishment of a probation system in Ontario. He will

Had An Annoying Hacking Cough GOT NO REST AT NIGHT.

Hacking coughs are very wearing on the system. The constant coughing disturbs the rest, and keeps the lungs and bronchial tubes in such an irritated and inflamed condition, that unless you get immediate relief the cough may become settled and serious lung trouble ensue.

There is no better remedy than Dr. Wood's Norway Pine Syrup for relieving all kinds of coughs or colds, combining as it does the lung healing virtues of the pine tree with which is combined wild cherry bark, and the soothing and healing expectorant properties of other excellent herbs and barks.

Mrs. E. J. Ross, Penhold, Alta., writes:—"About three years ago I caught a very bad cold, accompanied with a sore throat and hoarseness. I was so hoarse you could not hear me speak. I could get no rest at night with the terrible annoying, hacking cough. I tried several remedies, but they did me no good. I finally saw Dr. Wood's Norway Pine Syrup advertised so I got a bottle. It at once gave me relief, and after using four of them my cough had all gone. Now I always keep it in the house."

"Dr. Wood's" is put up in a yellow wrapper; three pine trees the trade mark, price 75c. and 80c. a bottle. Manufactured only by The T. Milburn Co., Toronto, Ont.

introduce a bill dealing with this matter early in the session. Labor is out with a demand for old age pensions. Hon. Walter Rollo, Minister of Labor, favors this, but whether his influence with the other members of the cabinet is sufficiently strong to persuade them to consent to the introduction of a bill providing for the aged people of this province has yet to be seen.
