THE INTEREST IS GROWING

In the Meetings of the Missionary Conference at Bethel Church.

The Bible and missionary conference being held at Bethel Congregational church, Johnson street, continued Tuesday, with three sessions. At 10.30 a.m., a service of prayer was held. It proved to be a time of help and profit.

At 3 p.m., Rev. A. W. Roffe, Toronto, presided. Rev. C. Eicher, returned missionary, from India, delivered an address on "The Religions and Races of India." Mr. Eicher showed that India's people were our brothers, being of Aryan stock. He also showed that their religions had come to our shores in the form of the various cults, and were permeating the very vitals of our churches. He also showed that our way of deliverance was by the means of prayer.

Mr. Eicher related some instances of his work among the natives and how their lives had been transformed in answer to prayer.

In the evening at 8 o'clock Rev. William Franklin, of Old Orchard, Me., was the speaker, and spoke from the fourth chapter of Ephesians, taking as his subject the indwelling of the Holy Spirit.

"When Paul wrote these letters to the church at Ephesus, he wrote them to those in the church, and not those out of it," said the speaker. "It was for those raised up in Christ. There is a great need in the church to-day for people filled with the Holy Spirit, but the trouble is, we do not invite Him to come in. We should be filled with the spirit and realize the need of it. Some people say they would be glad if they could only make sure of Heaven and escape Hell, but we want something more than that. We want Fellowship, Fellowship with God, and we can only obtain that by having the Holy Spirit come into our hearts, which brings us nearer to God.

"But what relation are we to the Holy Spirit. We are His temple, the place of His abode, and we must recognize the necessity of keeping our body a fit dwelling place. But what are the conditions? We must put away all uncleanness and greediness; lying, giving place to the devil, stealing, corrupt communications from out of our mouth, and grieving the Holy Spirit of God. We must have the inflow and the outflow of the Holy Spirit to be able to do these things.

"There are many hindrances to the inflowing of the Holy Spirit but they are all on our side. We are passive when God would have us active—passive to the things that offend God, and He will not take a thing out of our lives until we give consent, and when we do, the Holy Spirit will come in. We are born with a sinful nature, but habits are put on. We must let go and yield all our members to God. Thought controls all our members, and while we cannot ourselves change thoughts, God can. We must not wait for Him, but must wait upon Him. Let God walk in your every member. Walking in you, and through you.

"But having the Holy Spirit dwell in us does not mean that we shall not have trials in faith, for we will, but it enables us to pass through them still believing in God."

Mrs. E. A. Treneer, during the service, sang very sweetly, "God Will Lead Us Home."

During the next three days three sessions will be held daily and the interest and attendance is steadily growing.

SCOTTISH BANQUET HELD

In the City Hall in Honor of Robert Burns' Birthday.

The Sons of Scotland celebrated the 162nd anniversary of the birth of Robert Burns, national poet, on Tuesday evening, by a splendid banquet and dance in the city hall. Nearly three hundred people attended. The music was furnished by Pipe Majors Fraser and Finlayson on the bag-pipes, and S. A. Salisbury's orchestra played throughout the dinner. A procession was formed, and led by the veteran Thomas MacKenzie, with drawn sword, and the two pipers, the bagpiper was borne on the heads of waiters around the hall. Arriving at the head table, J. D. Bankier pronounced the Burns' grace, and then the bagpiper was served by the Honorable Chief Brother Major-General Sir A. C. Macdonell.

Major-General Macdonell presided, and after extending a very warm welcome to the guests, introduced the speakers. Rev. Prof. J. F. McFadyen proposed the toast "The immortal Memory," in which he interpreted the spirit of Robert Burns and emphasized his place in Scotland's history and literature. What Wallace and Bruce did in their time, Burns did in his time. Prof. McFadyen gave a brief sketch of the conditions prevailing in Scotland in Burns' time. While there were changing conditions, Scotland did not produce Sinn Fein clubs, but she produced the immortal Burns, who breathed into life that splendid spirit of Scotland that the world cannot take away. He gave to us truer thoughts of God and kindlier thoughts of man. His poems interpreted the music and romance of the Scottish people, and his love songs were rather addressed to the female sex in general than to any particular woman, for he idealized them all of Scotland's girlhood he said "God bless them all."

Prof. James Roy, in response briefly to the toast, said that Burns did not stand above the people of his day and he was not, during his

lifetime, the object of national veneration that he had become. Indeed his position was rendered the reverse by reason of his personal weaknesses. But his powerful human sympathy found response in every heart and he interpreted old Scotland, and though he was ostracized for his sins against the conventions of society, there was a pathos in his lot that made him a tragic figure. His genius and humanity gave a heritage to Scotland and to humanity at large.

Col. A. Macphail proposed the toast to "The Ladies" and Prof. Mitchell replied in a very witty speech that evoked repeated applause.

A delightful musical programme was rendered by Mrs. Andrews, soprano, Messrs. Bankier and A. Ker, baritone. Mrs. Vandreser and Miss Rogers accompanied the singers. At the conclusion of the programme the hall was cleared and a most enjoyable dance was held.

"THE ALWAYS BUSY STORE"

READY FOR ICE HARVEST

Has Added Power Plow To His Equipment.

Cape Vincent, N. Y., Earle W. A. Casler, manager of the St. Lawrence River Ice company, has everything in readiness for the annual harvest. The river is now frozen over, and if the cold weather continues it will not be long before the work of cutting will be commenced.

The work of harvesting this season will be made much easier owing to the fact that Mr. Casler has purchased a Brunel-Duford ice cutting machine. The machine, which is driven by a gasoline motor, has a capacity for cutting about thirty cakes per minute. Heretofore the cutting had been done by teams, which was a rather slow process.

For a number of years past the St. Lawrence River Ice company has furnished ice for the St. Lawrence division of the New York Central Railroad. This year, with new machinery and the plant remodeled for the quick handling of ice, Mr. Casler will be able to get out and ship a larger amount than ever before.

OPPORTUNITY KNOCKS

DON'T BE CAUGHT WITH THE STORM DOOR SHUT

Letters to the Editor

Form Their Own Conclusions
Kingston, Jan. 26.—(To the Editor): I have read George Walker's letter of the 25th inst., and as my time is fully occupied with my work at the Royal Military College, I have nothing further to add to my letter of the 17th inst. I am quite willing to leave it to those interested in and with a knowledge of wrestling to form their own conclusions as to the challenges issued by Walker.

—CHARLIE FRASER.

"Shoes of Merit and Distinction"

Phone 2216. 150 Princess St.

It takes an old-fashioned woman a long time to make up her mind to use rouge on her cheeks. But when she starts she is no duffer.

One redeeming feature of these here times is the fact that the men are not getting effeminate the way women are getting masculine.
