MANUFACTURERS' LIFE CO.
Annual Statement Shows a Year of Outstanding Success.
The thirty-fourth annual report of the Manufacturers' Life as presented at the annual meeting on February 3rd, shows remarkable expansion. All previous records for new business were broken, the new insurances being \$52,268,849, while the amount in force on December 31st, 1920, reached the large total of \$178,757,911. The gain in insurance in force, of \$39,371,180, also established a high record.

The income from interest and dividends amounted to \$1,639,978. The assets increased during the year by \$3,865,280, and now amount to \$32,220,910. Of the total invested assets over 95 per cent, consist of government and municipal bonds, first mortgages on real estate, policy loans, cash on hand and in banks.

During 1920 the sum of \$480,598 was paid to policyholders in dividends. A further sum of \$881,805 has been set aside for dividends payable in 1921 and future years. After providing for these items and maintaining a contingent reserve of \$300,000, the surplus amounts to \$2,536,341.

The mortality experienced was extremely favorable, being only 51 per cent of the expected. The report is one that reflects great credit on the management.

Steamships' Directors Will Take Immediate Action

Montreal, Feb. 9.—It is understood in the street that directors of Canada Steamship Lines, Limited, will meet on Tuesday, Feb. 15th, to take action on the dividends which are payable March 15th. J. W. Norcross, who has been abroad for a considerable length of time, is not expected home in time for the meeting, but it is understood that this will in no way interfere with the function of the board, which will consider dividend action solely in the light of earnings, disregarding other considerations. The street is looking for the usual rate, despite rumors to the contrary.
