Napanee Hockeyists Defeat the Queen's Science '22 Team

A Napanee correspondent writes: Queen's '22 Science team, Kingston, and Napanee played hockey at the covered rink on Wednesday evening before a large crowd, and Napanee defeated Queen's by the score of 4 to 1. The ice was heavy and made puck carrying difficult. On numerous occasions both teams broke away for nice rushes, but either oversteered the puck or kicked it. The referee was right on his job, and very little escaped his eye. The Napanee team played good hockey, and if anything had it over their opponents in skating and combination plays. It would be hard to single out any player for conspicuous playing, as they all gave their best, and what is more, played clean hockey.

Napanee was the first to score. Freddie Huffman doing the trick, ten seconds after the face-off, on a shot from close in. Freddie was hurt and had to retire for repairs, and McNeill replaced him. "Bo" seemed to take the eye of the crowd, as he was given a great reception when he came on. Play was up and down the ice, both teams having shots on goal. L. Spencer got away to a nice rush and kicked the puck when in a nice position in front of Queen's goal. Young and McNeill worked a combined rush, which resulted in Napanee's second goal, Young doing the trick.

In the second period, Queen's forced the play, and the puck hovered around Napanee's goal for some time. The locals then made it hot for Queen's, and the visitors' goaler was forced to save several in succession with a man short. Affleck, of Queen's broke through on a nice rush and drew Steacy out of the net and scored. The ice became very heavy and for a time play lagged considerably.

In the third period the Napanee paid more attention to combination and it soon got results. On a nice rush, Huffman scored on a pass from Young. Tully, of Queen's, went the full length of the ice, but Spencer relieved nicely. Blute rushed and shot on goal, but his shot was wide. Queen's broke away for a three-man rush but Napanee's defence seemed hard to penetrate, and McNeill back-checking, secured the puck and rushed, but again had hard luck. "Bo" secured the puck, however, and on a scramble in front of the net, scored the last goal. The bell rang with the puck in Napanee's goal. The line-up: Napanee—Goal, Babcock and Steacy; defence, Loucks and L. Spencer; centre, Huffman; left wing, Young; right wing, I. Spencer; subs, Blute and McNeill. Queen's—Goal, Bleakney; defence, Tully and Affleck; centre, Poyser; left wing, Handmaid; right wing, Bracken; subs, Wilson, Thorburn and Taylor. George Walters, of Napanee, refereed a hard game and was impartial in his rulings.

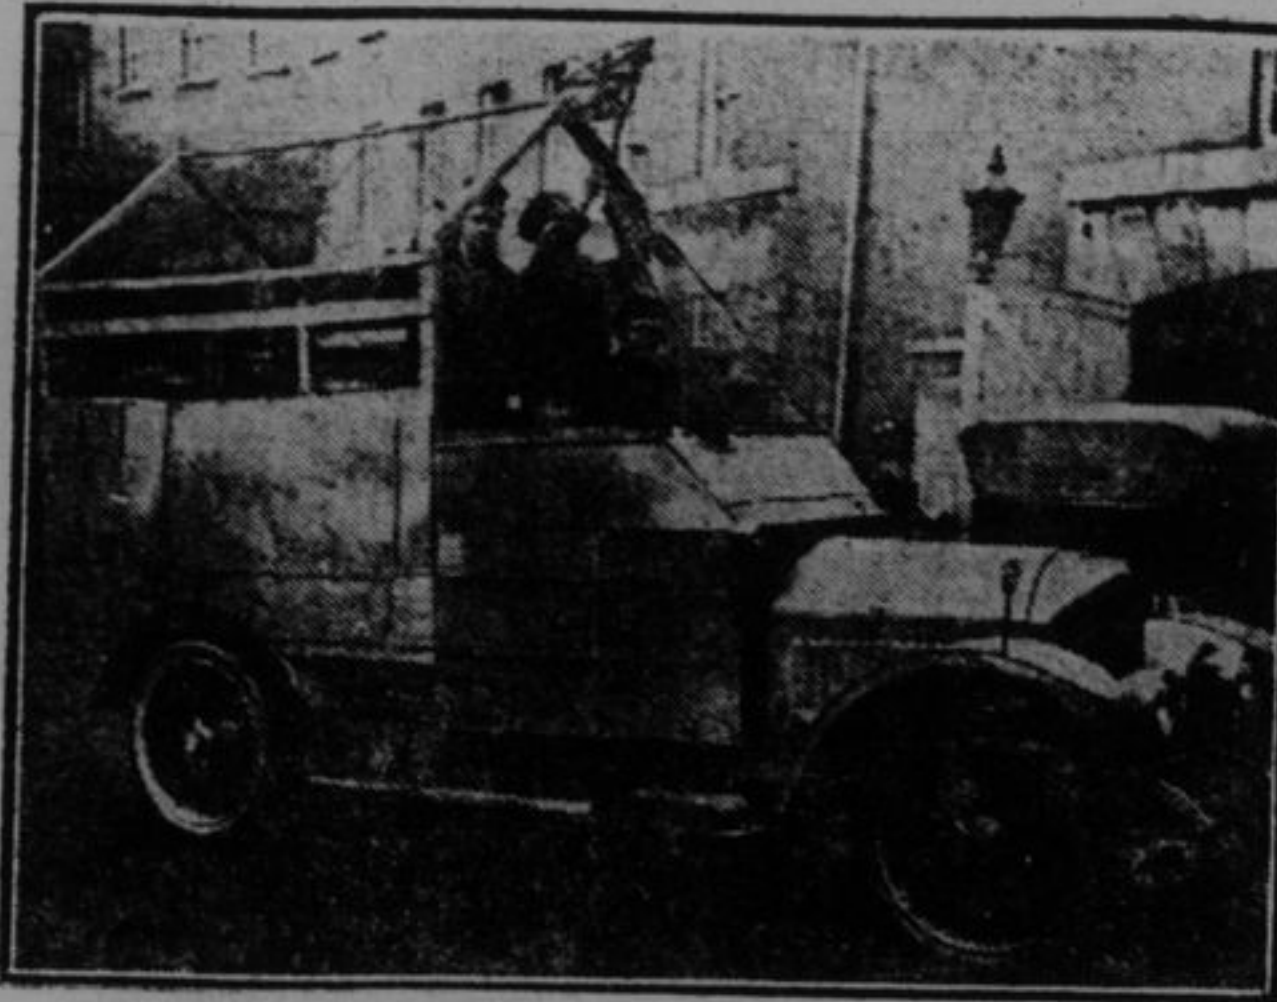

Bad Breath IS CAUSED BY CATARRH

Canadians suffer more from Catarrh than from any other disease. On this account Catarrh is dangerous and should be checked at the outset. It isn't necessary to take internal medicine to relieve Catarrh. There is a far better method.

Doctors now treat Catarrh by sending a purifying, healing vapor through the breathing organs. In this way the germs of Catarrh are destroyed. The only successful vapor treatment is CATARRHOZONE, which the patient breathes through a special inhaler to the real seat of the trouble. The rich, piny essence of Catarrhozone, heat and soothe all inflamed surfaces. They effectively treat the nose, throat, and lungs with a powerful antiseptic that destroys irritation at once.

Catarrhozone brings into the system the balmy air of the pine forest. It relieves completely colds, coughs, catarrh, weak throat, and bronchitis.

Once tried, Catarrhozone is always used. Nothing so pleasant, so simple, so quick to relieve. Accept no substitute. Large size lasts two months, and costs \$1.00; small size 50c; sample trial size 25c; at all dealers.

THE LATEST IN ARMORED CARS.

Because of the numerous attacks by bombs and bullets to which crown forces in Ireland are being subjected, the authorities have adopted a unique means for protection of auxiliary police while on duty. The men travel about in armored cars, which have the appearance of traveling hen coops. The sides of the cars are highly-tempered steel plates, high enough for the men to seek cover, and the entire car is covered with a heavy wire mesh as protection against bombs. The steel plates of the cars are of such strength that steel-jacketed bullets make but a dent in the plates. The photograph shows one of the cars on duty in Dublin.

Quebec's New Race Tracks.

The province of Quebec is threatened with new race tracks this year to such an extent that it should not be surprising if a popular movement towards their suppression were started. At least three new ones in Hull, Quebec City, and across the River St. Lawrence from Montreal, are announced. The latter is to be close to the Country and Golf Club on land supposed to be owned by the government. Protests are to be made on the ground of the crowds such places attract and the consequent lowering of the value of the adjoining property.

Toronto Globe: George Kennedy went up into the Northern Ontario Hockey Association in search of playing talent and returned to Montreal to report that he could not get any of the men he wanted. He says the stars are getting well paid and decline to make the plunge into professionalism. Are they, or is the owner of the Canadiens "alibiing?"

One must wear Tooke collars to be in style, and in the Tooke Collar purchasing, however, must not every collar be made of the same material. Without the stamina of the Tooke collar, the collar is not in its class. Tooke collars are made of the finest materials, and are guaranteed to last. They are made in the most artistic and comfortable manner, and are shown in the most appropriate and effective method. Whatever style of collar you desire, more than ever, you will find it in Tooke collars.
