## CHRISTIANITY AND THE BIBLE

By the Rev. Charles Stelzle.

If we admit that we are a "Christian nation" then it's worth while discussing what Christianity is. That there's a difference of opinion on this subject is nothing against Christianity nor against the men who may disagree. The difference of opinion regarding the nature of Christianity is due to the fact that it has to do with life, and with men. While the fundamental basis of Christianity must always remain the same, and while the fundamental principles of men's characters are eternal, both are capable of infinite expansion. They cannot be limited to the ecclesiastical terminology of the theologian in the one case, nor to a narrow interpretation of life in the other.

Principally, Christianity is a character and a life—the possession and the manifestation of the life and the spirit of Jesus. Not necessarily the life of the monk, or the "pariah," or the stoic, or the "Puritan"—these may all be Christian in a very important sense, but they are abnormal. The healthy Christian life is lived in the world among men and is interested in their everyday affairs. It is lived at the primary and in the labor union. It is lived in the shop which concerns the well-being of men which can be alien to the Christian life.

Christianity is not dependent upon the infallibility of the church nor of the Bible. The church and the Bible are simply a means to an end, and not an end in themselves. Their purpose is the revelation of God in Jesus. Therefore, the chief question that men are called upon to answer is not what do you think of this doctrine, or that church, or that system of theology, but what do you think of Jesus? Gladstone once said that this is the greatest question of the age.

### THE MAN ON WATCH

The movies appear to have been a better drawing card than the hockey rink this winter. The dean of Ontario has the right idea of this temperance business. Temperance does not apply only to the drinking of booze, but to eating, smoking and various other things.

### St. Andrew's church

St. Andrew's church may be 117 years old, but there is some pep to the givings of its people who know how to dig down into their jeans on anniversary day.

### Wolfe Island's ferry boat

Wolfe Island's ferry boat is already preparing to sail down the river. The sandwich picnic will be upon us before we know.

### Probably the garbage inspector

Probably the garbage inspector will be permitted to hop into the police patrol and do some inspecting. Or how would it do to buy "Bunty" a motor cycle?

### Men cannot get away from it.

Men cannot get away from it. It will follow them to the ends of the earth. They may become angry because of its presence, but doesn't this prove that it is no ordinary question? To dismiss it by saying that Jesus was simply a great reformer will not satisfy. To say that he was only a good man, or that he was a great teacher, but simply one of many teachers, brings the consciousness that one is only dodging the issue.

### It is frequently stated that Jesus

It is frequently stated that Jesus came to establish an ideal republic, or that he sought to inaugurate a Utopian democracy. Neither statement is true. His own words indicate that it was His purpose to establish an absolute monarchy—a kingdom—of which He should be the head. This kingdom is to embrace all those who will acknowledge His kingship.

### Sometimes the "regular" theological

Sometimes the "regular" theological professors get a solar plexus blow because a comparatively uneducated man proves that he understands more about the deeper truths of the Bible and religion than they do.

### According to Dr. Mitchell, the earth

According to Dr. Mitchell, the earth is decreasing in size, but according to Kingston property owners this cannot be, as many of them take out and say that their walk and paved road frontage measurement is greater than that specified in their deed of land.

### The Lampman would make vaccination

The Lampman would make vaccination a permanent requirement for admission to schools and colleges. Some people would never get vaccinated unless forced.

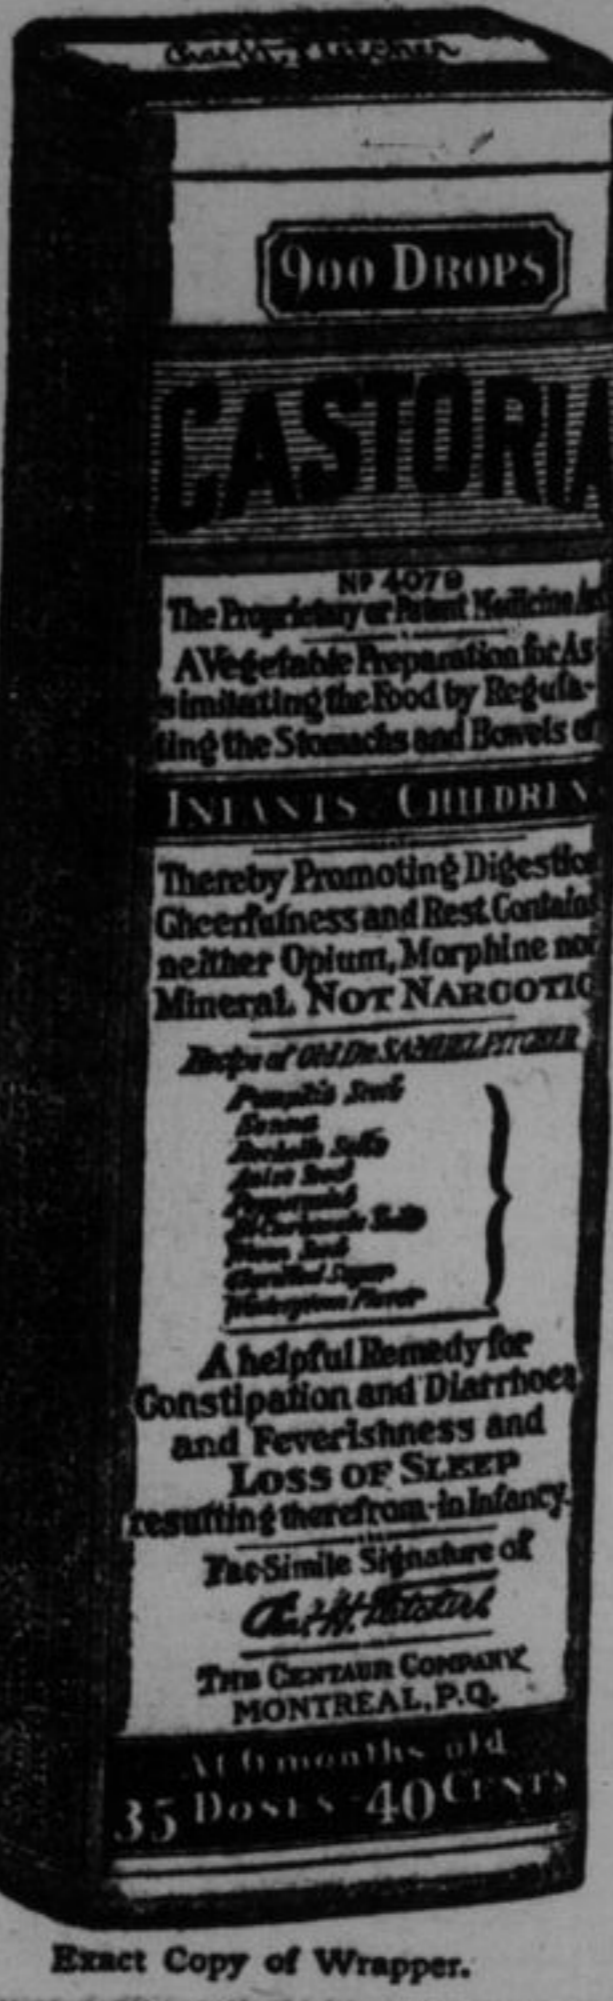

## Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: "Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge."

## Children Cry For Fletcher's CASTORIA

Your Friend, the Physician.

The history of all medicines carries with it the story of battles against popular beliefs: fights against prejudice: even differences of opinion among scientists and men devoting their lives to research work; laboring always for the betterment of mankind. This information is at the hand of all physicians. He is with you at a moment's call be the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you can always look for advice even though it might not be a case of sickness. He is not just a doctor. He is a student to his last and final call. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—as he will—that Fletcher's Castoria has never harmed the slightest babe, and that it is a good thing to keep in the house. He knows.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA. GENUINE CASTORIA ALWAYS Bears the Signature of Chas. H. Fletcher.

## Purina Calf Chow

Is Different. Yes, it's unlike any calf meal on the market. 1st. It's different because it's better. 2nd. Every ingredient is a pure feed of recognized value, no "phony" products of unknown worth. It does not contain anise, or any appetizer. Calves eat it as greedily as they do whole milk. 3rd. It does not scour; blood flour is one of the important ingredients, which insures freedom from scour. 4th. Easy to feed, no boiling, just mix with warm water. 5th. It is balanced just like whole milk. Calves thrive from the first on Purina Calf Chow and it keeps them making gains without sickly periods. It is used by many of the best dairy farms in the country to raise the finest calves. 6th. But it is cheap enough to use on any calf, costs less than half as much as milk feeding. So easy to feed that boys or girls are assured of success.
