A Start in the Right Direction

The temptation to spend money in your pocket is greater than when your money is in a savings account in the bank. That margin of temptation may mark the difference between an opportunity to go into business later on or of working for wages with nothing saved and nothing ahead, at the end of your working years.

Why not open a savings account in The Bank of Nova Scotia to-day?

Your account will be welcomed and you will have made a start in the right direction.

He Saved His Platoon. Corp. Alex. Brereton, 8th Battalion, Winnipeg, won his V.C. for most conspicuous bravery during an attack when a line of hostile machine guns opened fire suddenly on the platoon which was in an exposed position and no cover available. This gallant N.C.O. at once appreciated the critical situation and realized that unless something was done at once, the platoon would be annihilated. On his own initiative, without a moment's delay, and alone he sprang forward and reached one of the hostile machine-gun posts, where he shot the man operating the machine gun and bayoneted the next one who attempted to operate it, whereupon nine others surrendered to him. Corp. Brereton's action inspired his platoon to charge and capture the five remaining posts.

Generous. Mamma—"Yes, darling, those dear little boys have no father and no mother—and no good Aunt Jane. Aren't you sorry for them?" Freddy (no great admirer of his stingy aunt)—"Oh, poor little boys! with cheerful alacrity: 'Mummy, dear, may I give them Aunt Jane?'"

The danger in debt is often times greater than we imagine.

Keeping money employed

WEALTH may be accumulated either by employing labor or by employing money, which in turn is again used to employ labor.

Few individuals can employ labor, but everyone may employ money.

When you deposit your money in a savings account in The Bank of Toronto it is employed, earning interest which increases your capital until the time comes when you have a sufficient sum and the opportunity to make a permanent investment.

See our Branch Manager about opening a savings account—it is a very simple matter.

Few Men Dread Death Itself

A PHYSICIAN of long experience told the Ohio State Journal the other day that, when the time comes, few men dread death itself for themselves.

What they do dread, he said, is leaving their families unprotected.

He told of some sad scenes where men about to die repented bitterly of their failure, while yet there was time, to assure the future of those dependent on them for material support.

If your physician told you that there was "no hope for you," would you face the inevitable with the peace and calmness which only the knowledge that you have provided for the future comfort of your wife and children could bring? Or would you have fears and regrets?

Life is uncertain. Surely no man who really loves his wife and children will put off the duty of insuring his life? Procrastination has robbed many wives and families of the protection that they sorely needed.
