SERMON ON REFERENDUM TEACHERS' FEDERATION

By Principal S. W. Dyde in Zion Church, Sunday Evening.

Principal Dyde, D.D. preached a powerful sermon Sunday evening in Zion Presbyterian church on "Am I My Brother's Keeper?" and the answer to that question, which is to be found in the characteristics of "the holy city, new Jerusalem, coming down from God out of heaven," spoken of in Revelation, 21st chapter. This city is not heaven, but cometh down from God out of heaven, and might be Kingston if we loved God with all the powers of our soul, and our neighbor as ourselves.

Speaking on prohibition, Dr. Dyde said that just as there is no explicit condemnation of slavery in the Bible, so there is no explicit condemnation of the liquor traffic; but there is a statement of principles which makes it impossible for one to be indifferent to his neighbor's well-being. "What is true Christian liberty?" Not doing as one pleases. That would result in a bad condition of things. In "the holy city" where God is the chief citizen, one would take into consideration the general good of the community. The apostle goes so far as to say "We then that are strong ought to bear infirmities of the weak and not to please ourselves." Each one should seek especially to please God. Doing as one pleases may result in the works of the flesh and in the debasement of oneself and the community; doing as God pleases, and as Jesus teaches, means service to our fellows and the ennoblement of ourselves.

A slum in a city is a discredit to all its citizens, for all are responsible. Lloyd George says it is as great a disgrace as the loss of a battle. We do not discharge our duty as citizens unless we seek to abolish the slum and that which makes slums. To tolerate such poisons our own souls. If we wish to make Kingston that "holy city" we must seek to please God and to be of the highest service to our neighbor. In "the holy city" there are no slums nor slum souls.

On this basis, Principal Dyde made a strong appeal in support of the referendum. "But it is not enough," he said, "to banish drink. We all need spiritual life. Therefore we need to get in living touch with the Lord Jesus."

Principal Dyde closed with a very graphic picture of his boyhood days when he watched the village fire being fought with the old-fashioned fire-engine, which was pumped by hand. Boys were not tall enough to assist in the pumping. Often he had said, "When I am a man, I will be able to help." In "the holy city," when a fire breaks out in a neighbor's house, every man will be ready to take a hand at the pumps; to sacrifice self, if need be, for the good of his neighbor and the glory of God.

Inform Board of Education on the Salary Question.

The following is a copy of the letter received by the members of the Board of Education, from William C. Mitchell, president of the Ontario Secondary School Teachers' Federation, and read at the meeting of the board Thursday night:

"The Boards of Education throughout Ontario have experienced in late years great difficulty in securing teachers of experience. Many are compelled to employ unqualified teachers. This is due chiefly to inadequate salaries. Graduates of our universities will not undertake the exacting and arduous duties of the teaching profession, unless the salaries, in connection with the incomes from other professions, are attractive. The Board of Education in co-operation with the teachers, will render a service of unestimable value to the public, if the best brains are attached to remain in the profession. To assist in accomplishing this, the members of the federation, comprising practically all the teachers in the Secondary Schools of Ontario, have agreed:

1. No member of this federation shall apply to fill a vacancy in a continuation school for a salary less than thirteen hundred dollars.
2. No member of this federation shall apply to fill a vacancy in a high school or collegiate institute, situated in a rural district, village or town, for a salary less than seventeen hundred dollars.
3. No member of this federation shall apply to fill a vacancy in a high school or collegiate institute, situated in a city for a salary less than two thousand dollars.

The sympathetic support of the members of the board will be greatly appreciated, for, between them and the teachers, complete harmony must be maintained, if the highest standard of educational efficiency is to be the goal.

THE LORD KENS BEST.

(A Scottish New Year's card that will please Scottish readers).
The Lord kens best; And so I rest,
In His love well content;
For this I find, God aye is kind,
Whatever may be sent.

In many ways, through many days,
God seeks me, to be blest,
And aye I see a' comes to me
In love, for He kens best.

When aye by aye my friends hae gane
Awa' to their long rest;
I lippen still, since 'tis God's will,
And He kens what is best.

Whatever ails God never fails
When He's put to the test,
So come what may, aye this I say,
The Lord Himself kens best.

—D. HONEYMAN.

QUEEN'S PAYS ITS TRIBUTE

To the Memory of the Late Lamented George Y. Chown.

A memorial service was held in Grant hall, Sunday afternoon, when a large number gathered to pay tribute to the memory of the late George Y. Chown. Rev. Dr. D. Gordon read the scripture lesson and Dr. W. G. Jordan offered prayer. At the close of the service Dean Starr pronounced the benediction.

Principal Taylor said, in referring to the death of the late Mr. Chown, that the sad news had cast a gloom over the university. Everything the late registrar had done was for the good of Queen's, and it will not be until the history of the university is written that the share he took in its making will be known. The speaker traced associations with the leaders of the university for the past forty years and in his death there passes one who knew of the struggles of Queen's. When in his company you knew you were in the presence of a man of great power and personality.

Dr. Taylor said that when he came to Queen's he found Mr. Chown more of a friend than a colleague. No one will ever know how much he did to help the students, and the number to whom he supplied funds to enable them to obtain an education, will never be known. He was a humble man and would never accept the distinctions which the university had wished to bestow on him. Always deeply interested in education, it is to be regretted that he did not live to see the fruits of the research chair which he founded. The late G. Y. Chown was a man who was constantly open to misunderstanding, and some men thought him unsympathetic but they did not really know that he had the needs of the university most deeply in his heart. His largeness of heart is exemplified in the way he helped the returned soldiers and the numerous instances he assisted struggling students.

In conclusion Dr. Taylor said that Queen's has many loyal sons, but Mr. Chown had abilities not always found in college life, and the university should be thankful that he had lived for it.

Medical Men Object To Being Bartenders

Winnipeg, March 7.—Through resolution to be moved in the legislature by Dr. R. J. Waugh, M.L.A., for Norfolk, the medical profession of Manitoba will ask to be relieved of the responsibility of administering the Manitoba temperance act.

According to Dr. Waugh, the present act places the medical profession in the position of bartenders for the province.
