### A SUPPER AND CONCERT

Held in Honor of Queen Street Church's Sixty-first Anniversary.

The people of Queen Street Methodist church are rejoicing over the fact that the supper and concert in connection with the sixty-first anniversary which was held Monday evening, was a very decided success. About four hundred people partook of the bountiful and appetizing supper prepared by the Ladies' Aid Society, and enjoyed also the lantern views of Egypt and the pyramids which were shown during the period of waiting before the hour for the concert programme to begin. The latter was interesting and varied, embracing addresses by Revs. W. T. G. Brown and J. A. Waddell, an organ solo by Miss Nesbitt, a reading by the pastor, solos by Mrs. Crawford, Miss Hughes and Mr. Gask, numbers by the male quartette and the ladies quartette of the church, recitations by Miss Pringle and Mrs. A. W. Elliott, and a trio in which Mesdames Evans and Crawford, and Mr. Gask took part.

The pastor, who presided, called upon Judge Lavell for an address, and the latter responded in his usual happy way, expressing the thanks of the audience and congregation in general for the services of the ladies of the aid for the good things so generously served, and also to those who had assisted so efficiently in making the concert programme a success.

### "Booze" And Moderation.

"Booze has been found guilty" is the advertisement which the Ontario Referendum Committee has flooded the province with.

"Booze" is an objectionable word to use by implication in a discussion with the millions of men and women who believe in Moderation and Temperance—but not in Prohibition.

"Booze" means using alcohol in excess; its abuse, not its temperate use. With that definition alone the Citizens' Liberty League for Moderation agrees. The abuse of alcohol leads to all those evils which both that League and the Prohibitionists are seeking to end.

The Referendum Committee says that "Alcohol as a beverage has proved itself to be the enemy of the human race." The British government in its report on "Alcohol" says that "The temperate consumption of alcoholic liquors in accordance with those rules of practice (proper intervals, not concentrated, and with food) may be considered to be physiologically harmless in the case of the large majority of normal adults; and this conclusion, it may be added, is fully borne out by the massive experience of mankind in wine-drinking and beer-drinking countries."

Vote "No" on the 18th April. Read the literature of the Women's League for Temperance, and the Citizens' Liberty League for Moderation to be obtained free at 46 Clarence street. Phone 1610.—Adv.

#### TO WHIG ADVERTISERS.

The Whig would like to point out to advertisers the advantages, and in the case of this paper the absolute necessity, of having advertising copy in at least twenty-four hours before the edition of the paper for which it is intended. The correct composition of advertisements requires time and care, a fact that should be apparent to every thinking advertiser. Despite this, many of our largest space users persist in holding their copy until a late hour in the morning and everything comes in with a rush. This leaves the compositors scarcely time to set the advertisements at all, and forces the Whig to turn down other advertising which may come in during the morning. It is to the advantage of every advertiser to get his copy in the day before it is to run. As we have frequently pointed out before, the more time we have to do the work in, the better work we can turn out.

The tugs William Johnson and Frontenac, of the Donnelly Wrecking company, are in the Davis dry-dock for repairs. This is the first docking done there for a year or more as the Davis dock was last season undergoing extensive repairs and was lengthened twenty-three feet, making it 213 feet long, and able to receive all average-sized vessels. The repairs are still being carried on.

Keystone Vessels About Ready. The vessels of the Keystone Transports Limited are about ready to go into commission. Two of them will proceed to Erie on Thursday, and the rest will follow on the 15th inst. One vessel on the West India trade last season will go into the lake service this year. These steamers carry coal and grain to Montreal. They each have a capacity of 2,500 tons of coal and the season is not long enough to meet the demands of Montreal. They carry 300,000 tons during the open season and the rail routes are used in winter.

Mr. Waller, superintendent of the company, states that there are splendid unloading facilities at Montreal, and a cargo is emptied in twelve hours. There will be heavy traffic in coal and grain this season, but from indications other lines will not be so active.
