Save Your Eyes

WHY?

Do you have to scold the child for having a poor report from school? Are you sure it is not the fault of his or her eyes? In 90% of the cases it is.

Let us examine their eyes and we will tell you if the trouble is there.

"The House of Better Glasses"
Opposite the Post Office
Phone 699 - - - Kingston

Religion, as a rule, flourishes better in connection with adversity than with prosperity.
City soil is said to be superior to country soil for wild oats.

HAVE YOUR EYES EXAMINED

Although many people have normal vision, it is often accomplished by over working some of the delicate muscles of the eye, causing what is known as eye strain. This in time leads to headaches, tired eyes and poor vision in later years.

Let us examine your eyes and make sure that you are not over-working them.

OBJECTS TO CITY COUNCIL

Continued From Page 1
of education in local taxation, per pupil, in twenty-one cities and in this statement Kingston appears third last on the list.

Cost of Education.
The statistics are the latest available, being obtained from the Municipal Bulletin No. Four, for 1920, issued by the provincial government and the latest report of the Minister of Education giving the statistics of school attendance.
Toronto, \$69.39; Sarnia, \$63.79; Sault Ste. Marie, \$61.39; Fort William, \$61.08; Port Arthur, \$58.78; Brantford, \$57.71; Stratford, \$52.90; Ottawa, \$52.61; London, \$52.04; Chatham, \$51.49; St. Catharines, \$47.50; Belleville, \$44.47; St. Thomas, \$43.90; Peterboro, \$43.22; Hamilton, \$41.31; Galt, \$40.23; Guelph, \$39.66; Kitchener, \$38.87; Kingston, \$38.14; Woodstock, \$37.62; Owen Sound, \$36.24.

Reached the Limit.
Trustee Mills said he agreed with Trustee Macdonald that the board wanted the \$2,000, and it was true the board had a right to fix its own estimates. The board would not ask for money for unreasonable expenses, but it must be remembered that there had been increased expenditure for a new school and other things. The city council wanted to put the tax rate as low as possible, and the speaker had heard many complaints about high taxes. While the taxes had not been increased, the assessment had been raised, and the city had reached the limit of her power. City council had turned down a report of this board of works on proposed paving this year and the board of education could also help to cut down.

Trustee Henderson said he would support Trustee Macdonald's motion. He thought it was time the board let the council know what it was doing. Trustee Mowat remarked that much had been said about the taxpayers. Trustees were also taxpayers, and they had the best interests of the people in asking for the amount they had put in. The sum asked for was not a big one.

On the vote being taken, the motion of Trustee Macdonald to notify council that the sum would be required was carried.

Joined the Association.
Trustee Elliott introduced Sydney Kirby, Ottawa, and F. B. Edmunds, Toronto, who addressed the board and asked that the board become identified with the Urban Trustees' Association of Ontario, and after hearing the gentlemen, the board decided to take out membership in the association. The annual fee is \$25. Mr. Edmunds is a member of the Board of Education in Toronto, and Mr. Kirby is a member of the school board at Ottawa.

Mr. Kirby gave a history of the association since its organization, and pointed out the advantages the Kingston board would have as a result of being identified with the association. Membership would entitle the board to send two delegates to the annual meetings. The next meeting will be held at Windsor. At the last convention, twenty-four cities were represented, with forty-six delegates in attendance. Mr. Kirby made it quite clear that the object of the new association was not by any means, one to break away from the Ontario Educational Association. At the meetings of the O. E. A. there was not the time to devote to the questions that could be taken up in the other association. Mr. Edmunds told of the great help the boards could receive by affiliation with the association, along many lines, and dealt in an interesting way with various matters of importance to the board, all of which would have the consideration of the association. Trustees Elliott and Mills spoke warmly in favor of the board linking up with the association, and a motion was passed to the effect that the board join the association.

Arranged for Conference.
The board received a deputation of teachers of the Collegiate Institute, in regard to the salary question. Recently the teachers asked for an increase. The management committee recommended an increase, but on the matter being threshed out by the board, it was felt that the city could not give the teachers an increase. The teachers had asked for a conference, feeling that with such a conference they could come to some mutual understanding with the members of the board.

Principal Sliter placed the case before the board for his staff, and pointed out that the object of a conference was that of having the teachers and trustees come to a mutual

understanding. This was necessary, he felt, in order that the work might be carried on with harmony. There was a dominion-wide movement for the purpose of elevating the teaching profession. He did not think the trustees understood the action of the teachers' federation. The teachers had no intention of "holding up" the board. The chief aim was to raise the status of the teachers, and the question was not merely one of finances. Mr. Kelly, speaking for the teachers, said it was felt that many points at issue could be cleared up with a conference.

Trustee Elliott thought the teachers would find it more to their advantage to confer with the management committee. This committee could then bring in another report to the board. Chairman Lemmon and Trustees Farrell and Henderson felt that the teachers should present their case in concrete form and then the board would have something to work on.

G. S. Otto, for the teachers, addressed the board at some length, pointing out that the teachers felt that they should be as well paid as teachers in schools in other cities the size of Kingston. Mr. Saunders also spoke for the teachers, and there was considerable discussion, but as the board had a big slate of business on hand, it was decided to leave the matter over for a special meeting to be held next Wednesday night.

Reports of Committees.
Reports of the management and property committees were received and adopted. The management committee recommended that no change be made in the present relation between the salary schedules for men and women teachers but this clause of the report was withdrawn by Chairman Macdonald, owing to the absence of Trustee Mrs. Newlands, who is anxious to take up the matter. These recommendations of the management committee were adopted.

That the resignation of George Palmer, physical culture instructor in the College Institute, be accepted, the resignation to date from April 1st. Captain Law has been engaged temporarily to perform the duties until the end of June, at the rate of \$1-250 per year. A regular teacher will be advertised for in May.

As no suitable applications for the position of household science teacher were available, your committee considered it advisable to close that department until September next, by which time a desirable teacher will have been procured.

Regarding the alleged shooting accident at the College Institute:—Mr. Holder was present at the meeting of the committee, but as he had no new evidence to offer, your committee saw no reason why it should change its former decision in the matter. Mr. Holder desires to lay his case before the board.

These recommendations of the property committee were adopted:—That the community service be allowed the use of the kindergarten room in Frontenac school from 4 to 5.30 o'clock on Friday afternoons for the purpose of carrying on home club work among the children in that district. That R. Wallace & Sons be given the work of filling in and leveling the grounds at the Robert Meek school, his remuneration to be twenty per cent. of the cost plus twenty per cent.

Tenders were received for a supply of coal and the tinsmithing in connection with the stoves and furnaces in the different buildings. It is recommended that the tenders of James Richardson & Son for coal and Simmons Bros. for tinsmithing, being the lowest, be accepted. The coal prices are as follows: Three-quarter lump soft coal, \$9.75 per ton; egg anthracite, \$13.62; stove anthracite, \$13.93.

Tenders are now being asked for furniture for the new school.

Other Business Taken Up.
The following communications were received and referred to committees:

Agnes Compton, Vada Polk, Agnes Stout, E. Lillian Birchall and Grete Bennett, asking for position on the public school teaching staff.

Joseph Sharp and Howard Wenburn, asking for position as caretaker of schools.

Frontenac school, asking that kindergarten room be lighted with electricity.

Norah Macleanan, Isabel Bureau and Cecil Zacks, asking for position of supervisor of playgrounds.

Dr. Merchand, director of technical education, intimating that the board should give a grant towards the maintenance of the school of navigation classes.
