Our Daily Special. A Soft Answer May Save A Hard

Walt Mason THE POET PHILOSOPHER

If every man would do his best, whate'er his task may be, existence would be trebly blessed, this world a sight to see. Most all the troubles that we know would quickly fade away, and if you wished a slice of oe you'd have to hunt all day. No be wearing bells if each one did his best. The toiler would not cuss the plute, nor would the plute respond. but for each other they would root, with friendship as a bond. The thieves would quit their vain careers which get them in the hole, and put in their repentant years restoring what they stole. And all the sinful tricks of trade would travel galley west-there'd be no tar in marmalade, if each man did his best. This life would be a grand sweet song, a joyride in a car; our duds would ast us twice as long, our grub go twice as far; there'd be no business for the cops, the sleuths would be undone; the poorest man could buy his hops and raisins by the ton. We do not toil with proper zest to earn our weekly pay; we do not strive to do our best, but watch the clock all

-WALT MASON.

day; we're all afraid we'll do too

much, as we our hammers swing,

and so we've got the world in Dutch,

and balled up everything.

What He Did at Night. A motorist touring in the west wearing them ever since we moved managed to get his car stuck in a tenacious mudhole. After he made vain attempts to escape, a boy appeared with a team. Haul you, mister?" We know a man who thinks every "How much do you want?" "Two, dollars." After a long and fuitless argument the motorist agreed to pay the amount asked and the car was pulled to dry land. After handing the money to the lad, the motorist asked: "Do you haul many cars out in a day?" "I've pulled out 12 today." "Do you work at night, too?" "Yes; at night I haul water for the

> The Hebrides islands exceed 500 in number, of which only onefifth are inhabited. Thirty of the inhabited islands have a population of only ten souls each, while the Seven Hunters are a group entirely uninhabited. The population of the entire Hebridean archipelago is only 28 to the square mile. The live a few miles off the west coast of Scotland, the Outer Hebrides consisting of Lewiswith-Harris, North Uist, South Uist and Benbecula, while Skye, Mull, Islay and Arran are the principal isles of the Inner Hebrides.

mudhole."

Preferred the Candle. The most modern method of child correction is that of suggestion as opposed to repression. Little Doris was very nervous, and had a horror of going to sleep in the dark. Her mother, anxious to overcome weakness, said gently as she leaving her, "Remember, darling, that an angel will still be with you when I take the candle." "Mummy," pleaded a small voice. "I'd much rather you took the angel and left
