

THE ARMAMENT OF A HAT

By Juanita Hamel

A frame for her face—a reflecting bit of flattering color—a dainty sunshade—a creation of beauty in itself—all these a hat may be! It may also serve as a shield—a protection from someone the wearer doesn't wish to see—an armament against the stares of those who first look in startled admiration and whose eyes rest upon her, as if riveted there, until—well, even though it may be a tribute, SHE nonchalantly pulls down the brim a wee bit and strolls on—apparently unconscious of their adoring glances.

A banana peel on the sidewalk is a nuisance, and the man who steps on it usually tumbles to the fact.

The man who imagines that he never did a foolish act is too stupid to know what folly is.

Tips to Housewives

- Wash dried fruits, dry in oven, and place in glass jars ready for use.
- If an oil stove smells, drop a small piece of gum camphor into the tank.
- When washing a clothesline wrap around washboard and scrub with soapuds.
- The Japanese dry white silks in a dark room. This prevents their turning yellow.
- When buying pecan nuts avoid those which have been treated with a bright red color.
- If you wish to keep parsley, place in fresh water in ice chest and change water every day.
- Add one pound of finely chopped dates to a batch of whole wheat bread. Excellent.
- The scales on the stems of the asparagus are not always scraped off, but they should be. It is also best to drop the asparagus, whole or in pieces, into boiling water for five minutes, then rinse in cold before cooking it. It is daintier so prepared and more hygienic.

A "Report Charge" for Service Rendered

WHEN you ask the Long Distance operator to get Mr. Blank in a distant city, she establishes connection with his telephone.

If Mr. Blank is not there, or will not talk, the operator reports the fact to you.

To give you this report has required operating time and labor, and the use of Long Distance circuits, and for this service a Report Charge will be made.

Such a charge also applies when the right telephone address has not been given and the person called cannot be reached within an hour, or if the calling party is absent when the call is completed within one hour, or if he refuses to talk.

Only one Report Charge will be made on any call regardless of the number of reports made.

No Report Charge will be made—

- When the telephone number called is reported "Busy," or "Out-of-order," or "Does not answer";
- If the call is completed any time during the day on which it is filed.

A Report Charge is not made in connection with Station-to-Station calls.

If there is anything about our rates and practices you do not understand, please call our Manager and he will be glad to explain.

Make your money and your time go further. Use "Long Distance."

Banking Service for All

AS the majority of the first directorate of the Bank of Montreal, formed in 1817, were Scotchmen or bore Scotch names it was but natural that they should seek in Canada "to extend and to perpetuate for the farmer and the merchant the benefits and stimulus of a system the worth of which Scotland's prosperity could abundantly prove." One of the outstanding features of the system was the maintenance of numerous branches by banks of large capital.

The Bank of Montreal, in adopting this feature from the outset, laid the foundations of a service by which branches have been established throughout the entire Dominion.

At each of these branches the full service of the complete organization is available.

Through this service the Bank of Montreal offers to all classes of the community, from the smallest savings depositor to the largest commercial organization, good and adequate banking facilities. Each customer whether his account be large or small is welcome as a client of the institution.
