## TO PREVENT THE IMPORT OF COAL INTO BRITAIN

### Labor Interests Take Action To Keep Out All Foreign Coal.

London, May 2.—With the British miners' strike now in its second month, announcement was made today of a move by labor interests to keep coal mined on the continent out of Great Britain. Following a conference this morning between R. Williams, general secretary of the transport workers, and Edo Fimmen, president of the international transport workers' federation, Secretary Williams issued this statement: "Mr. Fimmen has given every guarantee that Dutch, French, Belgian, German and Austrian workers are determined to prevent the export of coal to Great Britain."

### CLOSE OF SEWING CLASS

Conducted During Winter at the Child Welfare Station  
On Saturday afternoon the Children's Sewing Class, which has been held at the Child Welfare Station under the auspices of the Victorian Nurses' Committee, was closed for the season with a pleasant leave-taking, attended by several members of that committee. About forty little girls went home much pleased with the bestowal of some small prizes and words of commendation for good progress under three or four kind teachers who attended during the winter months to aid Mrs. Miller in her responsibility for arranging and superintending the needle work, in the specimens of which she had much reason to be gratified. The variety of habiliments for the adornment of invisible dolls showed careful stitching and patient work, with an amount of skill which will be most useful to them through their future lives. Miss Jack was a faithful and valuable helper, and other ladies attended as assistants from time to time, including Miss Elliott of Queen's, whose important services given physical training have been already noticed in connection with a recent exhibit. The members of the Victoria Nurses' Committee present were much gratified with the season's work, and Mrs. John Wright, its president, gave the children a brief address of leave-taking, and the small pupils, after singing "God Save the King," separated with happy hopes of meeting when wintry weather comes again.

### NEW DRYGOODS HOUSE

W. N. Linton & Co., Successors to R. Waldron, Open Business.  
A new drygoods store makes its opening announcement in the advertising columns of today's Whig, viz., W. N. Linton & Co. This firm succeeds R. Waldron, and will occupy the old and well-known dry goods establishment at the corner of Wellington and Brock streets. The principals of the new company are, W. N. Linton and E. J. Sullivan. The former was for 40 years, and the latter for 30 years, employees of Waldron's store, and are consequently well qualified to carry on the ideals set up and the success attained by that venerable institution. They will specialize, as did their predecessors, in linens and high grade dress goods. Both men are well known and highly esteemed in the city, and their long experience in merchandising guarantees for them a successful future. It is pleasant to see this fine old store re-opened after being closed for several years. The large store has been stocked with new and up-to-date goods of every description, and will be a valuable addition to Kingston's merchantile and retail trade.

### Coal \$16.50 a Ton To People of Brockville

Brockville, May 2.—Those who had hoped for a reduction in their coal bills this season were given a rude jolt, this morning, when local dealers announced their price for anthracite to be \$16.50 a ton, an increase of fifty cents over last season. Soft coal will be cheaper. Dealers explain the increase by pointing to the added transportation cost of \$1 a ton which the consumers escaped last year through all shipments being received before the U. S. freight rates went into effect.

New Quebec Liquor Law  
Montreal, May 2.—Montreal opened under the new liquor regime today and twenty liquor commission retail depots started.

Other places in the province have not all got their licenses, Hull and Valleyfield being "bone dry."

Price lists have not yet been issued by the commission, but it is thought that a good brand of Scotch whiskey will be procurable for \$3 to \$3.50.

Miss Kathleen Baker, Kingston, is the Ontario winner of the fish recipe contest conducted by the fisheries department.

A wireless from Moscow announces the withdrawal from Persia of British forces.

Dr. G. C. Creelman declines the general managership of the Niagara Growers, Ltd.

Miss Reta Patterson, Windham township, makes rich oil strike in Montana.

Estimates place the number of cattle in the United States at about 68,000,000.

It's precautionary to order coal at present price. Be sure to get Swift's.

The United States has three concrete ships in active service. May Day was quietly observed both in Europe and America.

## GENERAL HOSPITAL APPEAL

### For Housecleaning Aid in Honor of Florence Nightingale.

The following appeal to the citizens of Kingston was issued today by Dr. A. E. Ross, superintendent of the General Hospital:

To the Citizens of Kingston:  
The birthday of Florence Nightingale was on May 12th. It is proposed to make the day a national hospital day in America. We propose this year to make use of the day for purposes of hospital housecleaning, and ask the citizens to use the time between now and May 12th, in initiating ways and means to secure money for such purpose. All moneys so contributed and sent to the secretary-treasurer, general hospital, will be earmarked "housecleaning" and will be used by the Women's Auxiliary who have undertaken the task.

This is a most necessary work and should appeal to every club and organization in the city, to every bridge and card party, to everyone to make a contribution no matter how small.

—A. E. Ross, M.D. Superintendent.

### CONSIDERABLE ACTIVITY.

#### Return of a Feature That Had Been Missing.

In their weekly comment on the unlisted market A. J. Pattison Jr. & Company, Toronto, say that considerable activity developed though in most cases price changes were only fractional. Many bids were in the market for such bonds as are actively traded in and for which there is at all times a ready market—this is a feature which has been missing from the street for many weeks.

Imperial Oil was again active, closing 105 to 110. A large amount of trading occurred between these figures. The market price fluctuated at times with great rapidity but as is usual with this stock movements upward resulted from only a moderate demand while all offerings on the downward scale were quickly absorbed and with only fractional declines. Riordan New was again under steady pressure, and the Common reaching 4 1-2 to 5 1-2 and the Preferred 37 to 39 on the close—these figures as compared with 12 to 14 and 67 1-2 to 68 respectively one week ago. It would appear that the liquidation in these stocks has about run its course and that they are due for at least some rally. Western Grocers Preferred improved slightly to 61 1-2 bid on very little trading with no stock offered. Cocksutt Plow eased to 54 to 59 with little interest evident either way. Goodyear Tire Preferred improved to 48 to 54 on considerable buying, at this close little stock was offered. Bids were repeatedly asked for on Gunn's Preferred but none was to be had at the present time due to the postponement of the dividend. Toronto Power 5's were traded in to a limited extent at 88 1-2 to 91. Whalen Debentures were in demand early in the week closing 51 bid with none offered.

President Harding is to be asked to mediate between ship owners and marine workers threatening to strike because of impending wage reductions.  
New potatoes, three pounds for 25c at Carnovsky's.

DAILY MEMORANDUM.  
Don't forget A. O. H. Euchre Tuesday, 8 p.m.  
Next British Mail will close Wednesday, May 4th, at 11 p.m.
