THE CROP OUTLOOK GOOD

Everything Points to a Fine Year in All Districts. The weekly telegraphic crop bulletin of the Bank of Montreal says the carefully prepared reports from bank managers all over the country indicate an unusually early spring, with seeding well advanced, labor plentiful and general conditions excellent.

Quebec has gone ahead exceedingly well. Pasturage is already good for feeding purposes and seeding has been completed in the south and is well under way in the north. In Ontario, although conditions are unusually good agriculturally, the wet weather delayed seeding to some slight extent. Tobacco acreage under cultivation has been reduced, but the total acreage has increased appreciably.

Conditions are equally good in all the maritime provinces and in British Columbia, everything pointing to a bumper year.

The art of shoeing horses to protect their hoofs against the evils of hard usage was unknown to the Greeks and Romans, and is first mentioned in the history of the Celts in the fifth century.

Court plaster is so called because it was originally applied by ladies of the court as patches on the face. It is made of silk, varnished with a solution of isinglass.

Miss Jennie McComb passed away in Toronto on Tuesday. She was a daughter of the late James McComb, Hillier, and was forty-eight years of age.

Calf's Modern Mother.

To the calf there is no particular difference between cow's milk and Purina Calf Chow—and you there is \$15.00 saving per calf. Purina Calf Chow is the nearest duplicate of cow's milk on the market—that's why calves thrive on it and do not scour.

Makes calf raising easy. Sell your milk—raise calves on Purina Calf Chow. You'll make more money with less work. A boy can feed it—just add hot water and give to calf. Sold in Checkboard bags only by
