

ANOTHER VICTIM OF RHEUMATISM

Entirely Well After Six Weeks' Treatment With "FRUIT-A-TIVES"

MR. AMEDEO GARCEAU

32 Hickory St., Ottawa, Ont. "I was for many years a victim of the terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician."

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take "Fruit-a-tives" and in a week I was easier, and in six weeks I was so well I went to work again.

I look upon this fruit medicine, "Fruit-a-tives," as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give "Fruit-a-tives" a trial."

Swindled! A small boy was taken, see the new baby, whom he eyed very critically.

"Why, he's not no fair, father," was his first remark. The fact was admitted. "And he's got no teeth, father," was the next comment. The circumstances could not be denied.

"I tell you what, father," was the final observation, "you've been swindled; he's an old 'un!"

As far as known, the first campaign emblem was a finger ring of copper. It was worn in the United States by the adherents of John Quincy Adams in 1824, when he ran for President, and was inscribed "John Quincy Adams 1825." Tintypes and medallions were among the insignia of the 1860 campaign when Lincoln was elected.

Good Digestion and Clear Pure Blood

DODD'S MEDICINES GO STRAIGHT TO THE FOUNDATIONS OF HEALTH

Saskatchewan Woman Tells How They Brought Her Relief and Why She Recommends Them to Her Friends.

Albertville, Sask., May 6th, (Special)—"I have got splendid satisfaction from the use of Dodd's Kidney Pills and Dodd's Dyspepsia Tablets."

Dame Medard Poisson, a well-known resident here, who makes the above statement, gives splendid reasons for making it. "I have a big appetite," she says, "and after a big meal I would go unconscious and would not show any signs of life."

"After taking Dodd's Kidney Pills and Dodd's Dyspepsia Tablets I am now able to do all my own work. I have no more spells of unconsciousness."

Dodd's Kidney Pills act directly on the kidneys, putting them in condition to strain all the impurities out of the blood. Dodd's Dyspepsia Tablets act on the stomach, giving it the strength to fully digest the food.

With good digestion and pure blood the body is in condition to combat the ill that daily make their attacks on good health.

Ask your neighbors about the Dodd's medicines. They have been in use in Canada for over a quarter of a century and have made hosts of friends.

to Harrowsmith to spend Sunday with friends. Mr. and Mrs. John Amey and son visited at Fred Amey's. Mrs. A. Wilkins and children have returned home after spending a month with her brother, James Walker, near Ottawa.

HUGE BUSINESS WAS RUN BY FOUR MEN

(Continued from Page 4.) mor, and did so in these laconic terms: "No truth in rumor. Macdonald tobacco will continue to be manufactured by us as independent manufacturers as long as the public calls for our goods."—W. C. Macdonald, Reg'd., Inc.

Was Founded in 1858.

William Christopher Macdonald founded his business of tobacco manufacturer in 1858, and since that time the name Macdonald has been one to conjure with in this country. The founder was a scion of a distinguished Scotch-Canadian family, and certainly he applied all the keen business instinct and dominating unobstructiveness for which his race has earned a reputation, to the conduct of his affairs. Though in those days his products never were advertised, though he refused to encumber himself with business correspondence, ignoring all letters save those containing orders, and acknowledging those letters only by shipments, C.O.D., his name was a household word from coast to coast in the course of a few years. Because in his later life he consistently refused to take cognizance of such modern adjuncts of business as the telephone, the office building, elevator, the automobile, etc., it has been alleged that he was not a progressive individual; but his success affords ample disproof of such a contention—a success unparalleled, perhaps, in the history of Canadian business, a success such as enabled him to be, next to the late Lord Stratthcona, Canada's greatest philanthropist; he gave more than fifteen millions of dollars to the cause of Canadian theoretical and technical education, and which placed him among the world's wealthiest men. Further, the fact that in 1870, twelve years after his business was established, he employed 1,100 men in his factory (a phenomenal figure for those days), does not entitle him to be regarded as unprogressive. Possibly the most progressive business man of his day, he was also the shrewdest and most thorough. He had the business instinct and he developed the business genius. While other companies, expanding their organizations, inclined to departmentization of their businesses, Sir William, with that breadth of vision of his, still could give all the necessary attention to all the departments of his business, distribution, manufacturing, purchasing, etc., etc., which were actually incorporated in one sole department, of which he was the sole director—a "one-man" concern if ever there was one. Sir William foresaw that the profitable continuance of his work must be carried on under the same scheme. In the person of his secretary he found a talent like to his, and that talent, transmitted to the sons of the secretary, Howard and Walter Stewart, still controls, solely, the business of W. C. Macdonald, Reg'd., Inc., for to these two men Sir William left the wonderful enterprise he built up.

While the Stewart brothers have recognized the merits of advertising with the result that their company is today one of the biggest advertisers in the Dominion, while they have taken cognizance of the automobile and of modern equipment, it is none the less true that the industry they control is still guided, and will be during their lifetime at least, solely by the spirit and unrivalled commercial wisdom of the late Sir William Christopher Macdonald. Hence, any rumors of the purchase of this business by other interests are at once untrue and illogical.

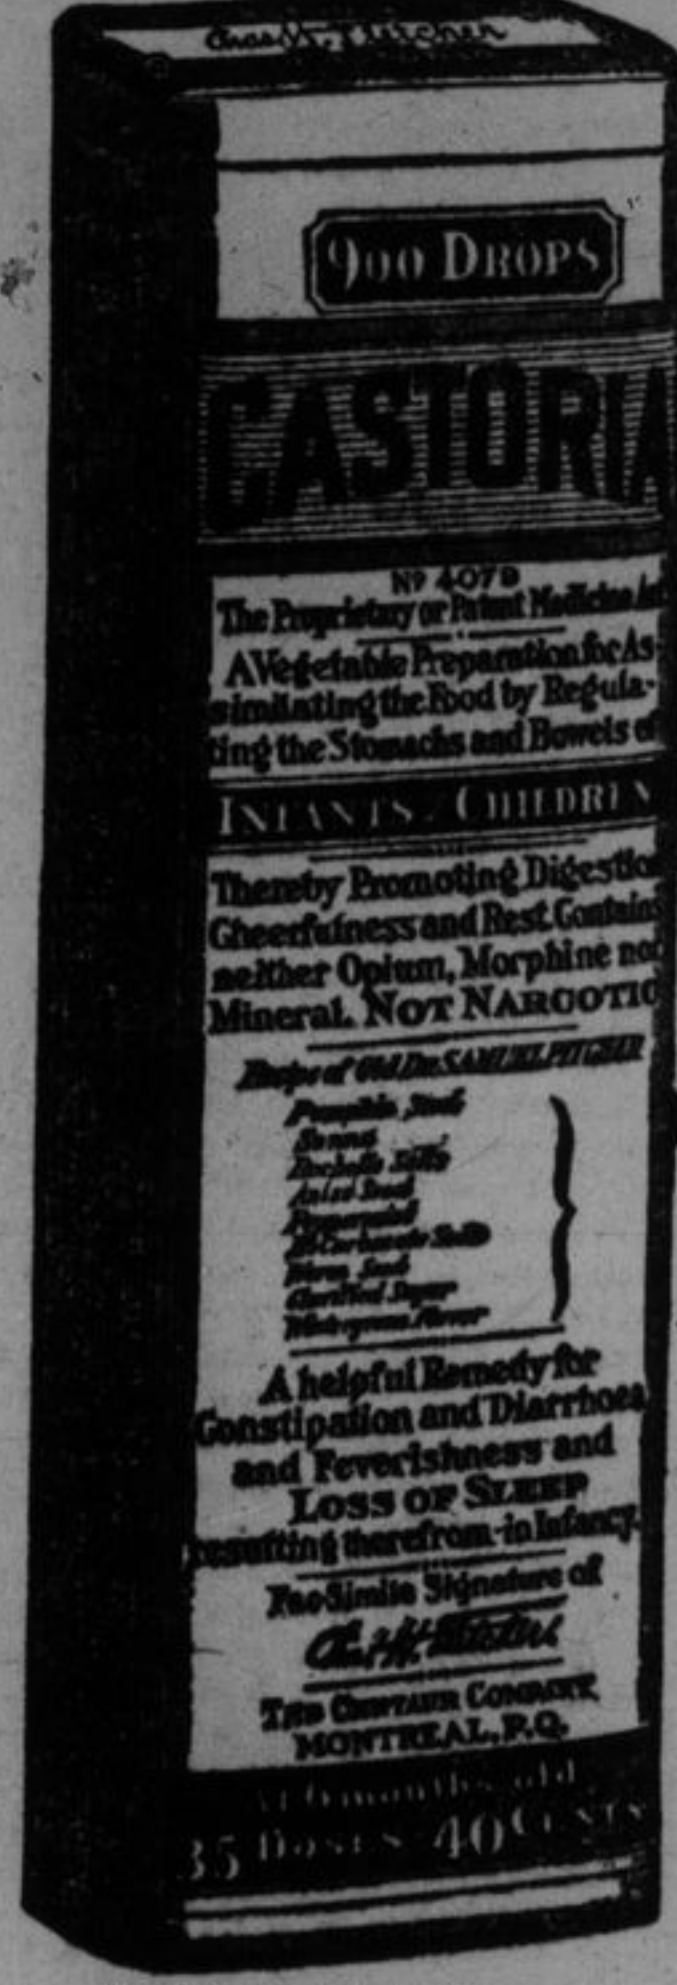

This is a changeable world men. They'll crown your dome with a laurel wreath today and crown it with a hickory club tomorrow.

When Baby Complains.

THERE ARE MANY WAYS a baby has of expressing any pain or irregularity or digression from its normal condition of health and happiness. A short sharp cry, a prolonged irritated cry. Restlessness, a constant turning of the head or of the whole body, fretful. In these and other ways a baby tells you there is something wrong. Most mothers know that a disordered stomach, or bowels that do not act naturally are the cause of most of baby's sufferings. A call for the doctor is the first thought, but in the event of any delay there should be ready at hand a safe remedy such as Fletcher's Castoria.

Castoria has been used for baby's ailments for over 30 years and has merited the good will of the family physician in a measure not equaled by any other baby's medicine because of its harmlessness and the good results achieved.

And remember this: Castoria is essentially a baby's remedy and not a cure-all for every member of the family. What might help you is too often dangerous when given to a babe.

Children Cry For Fletcher's CASTORIA

Let's Think It Over.

There is such a thing as saying too much on any subject, and the "grand-stand" talker sooner or later becomes a bore. The truth is always welcomed, and the truth reiterated and confirmed is more than welcome—it reaches your innermost soul.

Fletcher's Castoria is all its advertising has claimed for it. Scrutinized by the microscope of public opinion and used for over thirty years it stands without a peer in the hearts of thoughtful, cautious, discerning Mothers. And once used, mother love—there is no substitute for mother love—will scorn to try a "substitute" or a "just-as-good".

Masquerading under many names drugs that are injurious to the tender babe have found their way into some households, but the light of experience soon casts them out. Are they cast out before it is too late?

A Committee To Act.

On Thursday evening in St. James' parish hall a large committee for the Welcome and Welfare of the New-comer, was formed in compliance with the wish of the Council of Social Service of the Church of England, in Canada, to have such committees at work in the larger parishes. Rev. T. W. Savary was in the chair and representatives from the W. A. Girls' Auxiliary, choir, Sunday school,

Adult Bible class, Home and School Club, Advisory Board, A. Y. P. A. and Girl Guides' Executive, were present. Mr. Savary introduced Miss Goring, diocesan secretary for the department for the Welcome and Welfare of the New Comer, who outlined the objects of the department, the hearty welcome, visiting and absorbing into the parochial life of those recently attached to the parish. Mrs. R. Genge was elected convener of the committee, which will meet at an early date to begin its work.

Success and Health in a box of Milburn's

"FAINT heart never won fair lady," an old proverb, but certainly a true one, and it is equally certain that faint hearts accomplish very little in any other path of life.

Business Controllers, Statesmen and Professional Leaders are men of stout hearts. They are careful to repair the waste caused by continual strain upon their mental and physical system.

There are still thousands among our own population who ignore the heart, the most important of all organs. All toilet tables find room for some restorative—many find room for a box or two of Milburn's Heart & Nerve Pills. Their users are the wise ones who know the necessity of keeping the heart young—with a well heart there are no nervous complaints or ailments of any kind.

Grateful people all over Canada convey the facts of regained health through the use of Milburn's Heart & Nerve Pills. Read this one, chosen at random from thousands:

MILBURN'S HEART & NERVE PILLS

Mr. H. Maxwell, Woodhouse, Alta., writes: "I was in the army when I got heart trouble. The two doctors told me there was little hope for me to get better. I have doctored with other doctors, but with no relief. A year ago a friend told me to try Milburn's Heart & Nerve Pills. I bought a box at the time, and told him they were only a fake, but as I got worse I thought I would try a box. I have taken six boxes, and can say that they are the first thing that helped me, and I feel as if I were a new man. I sure can thank them, and feel that with a few more boxes I will be well."

To your nearest druggist is but a short distance. He will hand you the key to good health and happiness—a box of Milburn's Heart & Nerve Pills, or send 50c., and they will be mailed direct by The T. Milburn Co., Limited, Toronto, Ont.
