MATHIEU'S SYRUP OF TAR & COD-LIVER OIL

CURES

Coughs, Colds, Grippe, Bronchitis, Whooping Cough, Asthma, Etc.

MATHIEU'S SYRUP is a sovereign tonic combining the curative properties of TAR and the strengthening virtues of COD LIVER OIL.

Colds, when neglected or badly treated give rise to consequences of such a grave character that you should not risk using inferior preparations.

MATHIEU'S SYRUP is the only genuine remedy whose reputation has caused to crop up many imitations of doubtful value. ON SALE EVERYWHERE

CHARACTERISTIC OF JOFFRE

Plaudits Should Not Be Given Him But Crippled Soldiers.

Lisbon, May 11.—An incident which may suggest a characteristic of Marshal Joffre occurred at the imposing funeral services held over the two unknown Portuguese soldiers whose bodies were brought from France recently and placed in the Cathedral of Batalha.

The ceremonies were attended by the great French marshal and by other Allied commanders.

Joffre was easily the most notable figure in the funeral cortege which escorted the soldiers' coffins from the railway station. He marched behind the coffins with the other Allied generals, walking with a slight limp and carrying his ebony and silver marshal's baton in his hand.

Flowers were showered on him from the windows and once, when the acclamations became especially overpowering, the hero of the Marne, visibly affected, lifted his baton with a sudden gesture and pointed it toward the detachment of mutilated soldiers from the war who preceded him, indicating that the plaudits of the people should be for them.

WHAT IS NEEDED

For the Successful Development of Agriculture.

Calgary, Alta., May 11.—Greater co-operation in marketing and more efficient farming methods are two of the outstanding factors necessary for the successful development of agriculture in the west, according to an opinion expressed by Professor Geo. H. Hutton, president of the Western Canada Livestock Union and superintendent of the agriculture and animal industry branch of the Canadian Pacific Railway, in a recent interview.

There were, he said, two considerations which would help matters. They were that the average man could produce more efficiently than he was doing and the other point was that the produce of the farm should be brought to market at lowest possible cost.

As an example of co-operation he cited the Canadian Co-operative Wool Growers' Association, which last year paid all the wool producers of the west a price which was not only satisfactory to themselves, but also to the manufacturer. That, stated the professor, had given a great impetus to business.

DIES AT BOWMANVILLE.

Successful Wimbledon and Bisley Competitor, Also Postmaster.

Bowmanville, May 11.—Major William Crickmore King, postmaster here for about ten years, died in Bowmanville hospital on Monday after two weeks' illness from pneumonia. He was widely known among military men all over Canada. He was a member of the Council of the Ontario and Dominion Rifle Association, and some years ago won considerable fame as a Bisley rifleman.

New Pulp Mill Starts Production.

Fort William, May 11.—Production of groundwood pulp has begun at the new plant of the Fort William Paper Co., at Fort William, the first samples having been received in the city yesterday. Operations are to be extended until the capacity production of 120 tons of groundwood pulp per day is reached. Later on, a paper machine will be installed to carry the products to that further degree. A ready market is found for the pulp in nearby parts of the United States, where it is made into finished paper. The pulp mill was completed and put into operation ahead of schedule, it not having been expected to be ready before the early part of June.

Soldiers to Be Producers

Creston, B. C., May 11.—It is expected that three-quarters of the one hundred farms in the Lister soldier settlement area, peopled entirely by veterans, will be producing before the end of the present season. The area embraces seven thousand acres of land. Each soldier has a twenty-acre farm, and on most of these five acres has been cleared, stumped and "blowed" and is ready for seed. On each farm is a house built to the design of the owner, with suitable out-buildings. The large patches cleared and planted with fruit trees speak volumes for the industry of the ex-soldiers.

Egg Meat in Canada

Victoria, B. C., May 11.—People of British Columbia are not eating Chinese eggs despite large importations, according to the department of agriculture. Thirty-eight carloads of Chinese eggs recently arrived, but they all went through the province to Winnipeg, Toronto, Montreal, New York, Boston, Philadelphia and Trinidad, B.W.I. with the exception of 109 kegs of salt eggs to Vancouver and twenty-five to Victoria, consigned to Chinese residents. The kegs contained what is known as egg-meat—eggs shipped in liquid form without shells.

Cattle Killed by Poison

Saskatoon, Sask., May 11.—A number of farmers in Saskatchewan have suffered a loss through the careless handling of poisoned bait used for the grasshopper campaign. Instead of putting it away in a safe place for use the following year, the bait, which is very attractive to cattle owing to the use of molasses and bran in the mixture, was thrown outside, and as a result between forty and fifty cattle have been poisoned since last fall. The poison is very potent and is nearly every case where the bait was eaten it proved fatal.

HEROIC CASHIER FIGHTS BANDITS

Robbery of National Bank in Irish Capital—Woke Off With \$25,000.

Dublin, May 11.—A daring bank hold-up by armed men, who stole about \$25,000, and a plucky pursuit of the thieves by the cashier, who was shot twice by the bandits, occurred during the business hours in Dublin on Monday morning.

Six men entered the National Bank in Camden street and at the points of their revolvers ordered the staff to hold up their hands. While a few of the gang secured the doors and the others continued to menace the clerks, one of the thieves, with methodical coolness, went behind the counter and emptied out all the notes and a large quantity of silver and coppers. Another man put the money into a large bag, while others stuffed notes and coin into their pockets.

During the raid, T. R. Swayne, the cashier, made a plucky attempt to foil the thieves. Suddenly pouncing on the man who was keeping him covered, Swayne grappled with him. Another raider fired almost point blank at the cashier, who was wounded in the forehead.

Taking advantage of the confusion the robbers left the building, and in the street divided into two parties.

But the wounded cashier followed and an exciting chase ensued. Several people joined in the chase, but the escaping thieves kept them off by brandishing their weapons and firing occasional shots. Swayne was hit again, this time in the leg, but he continued the chase.

In their haste two of the fugitives, who had separated from the others of the gang, dropped a bundle of notes worth \$500. The chase becoming too hot the pair leaped into a butcher's van in the hope of escaping. But Swayne commandeered a bicycle, and crossing the Portobello bridge the two thieves jumped from the van and separated, leaving behind in the vehicle a coat containing \$5,000, which the dauntless cashier recovered. No arrests were made.

Three Years For Stealing Mail.

Niagara Falls, May 11.—Horace Pritchard, 24, of this city, was sentenced to three years with hard labor at the penitentiary by Magistrate Fraser for stealing registered letters. A marked letter sent from Toronto was found on him. Pritchard admitted the theft of letters during January, February and March of this year.

Dr. H. Wightman, Peterboro.

Peterboro, May 11.—The death occurred on Monday of Dr. Harry Wightman prominent local dentist and sportsman, after an illness of about three weeks. He was in his forty-eighth year, and had resided in Peterboro twenty-four years, having been born near Toronto. He was an active promoter and participant in baseball, curling and Y.M.C.A. work.

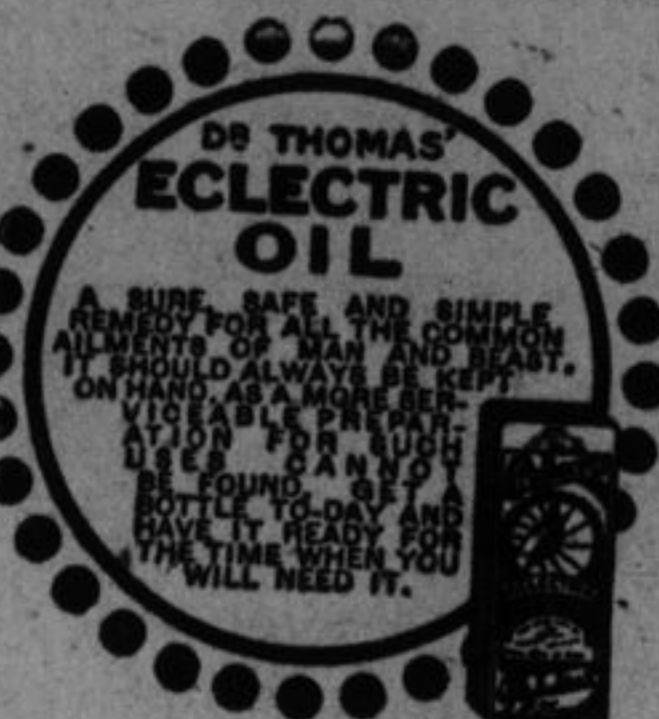

BOILS SO BAD HAD TO GIVE UP WORK

From the days of Job, up to the present time, boils have been one of the afflictions of the human race. All the poulticing and lancing you may do will not prevent them from breaking out again.

Boils are simply caused by the bad blood bursting out—and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters, which has been on the market for over forty years, is well known as the greatest blood medicine procurable. It purifies the blood by removing every particle of foul matter from the system, and when this is done the boils vanish, and you should never be troubled again. Mr. James Fahey, Newport Island, Que., writes:—"I was troubled with boils on my back and neck, so bad that I was obliged to give up work. I tried several remedies, but got no relief. Finally I went to a doctor, and he treated me for several weeks, and all without benefit. At last a friend told me of Burdock Blood Bitters, so I decided to give it a trial. I got three bottles, but before I had taken two the boils were all gone. It is eight months now, and I have had no return of the old trouble, and I have never felt so well."

B.B.B. is put up only by The T. Milburn Co., Limited, Toronto, Ont.
