Haw Haw! The Society for Minding Other People's Business is going to give the women folks a taste of the medicine it has been making the men folks swallow. And we doubt that the women will like it a bit. Men's habits having been regulated by legislation. woman's dress is to be regulated in the same way. And it in more than probable that within the year a woman must wear what a lot of whiskered men order her to wear. The Utah Legislature has reported favorably on a statute, fixing the length of the skirt at three inches above the ankle. Penalty, fine and imprisonment. The Vinginia Legislature is to vote on a bill prohibiting a woman from wearing a shirt waist or gown displaying more than three inches of her throat. Sh must not have skirts higher than four inches above the ground, and must not wear any garment . f diaphanous material. In Ohio a b'l' has been drafted prohibiting the wearing of a waist of gown that displays more than two inches of the throat. The bill also provides that no female over 14 years of age may wear a skirt which does not reach the instep. The bill further prohibits the wearing of any garment made of any transparent material, and also prohibits the selling of the same in stores. A penalty is fixed for those who wear any garment which unduly displays or accentuates the lines of the female figure. And you'll have to fight
