finest gardens.

MIXED TEA
Just enough green
tea to make the
blend delicious.

GREEN TEA
A Revolution in Green
Tea. Pure, translucent
and so Flavoury.

Corn Enders The old sort—and the new

Corns used to be treated by fakers.

But science has found a better way to treat corns. And millions have adopted it.

The modern way is Blue-jay—liquid or plaster. A famous chemist perfected it. This great surgical dressing house prepares it.

Blue-jay is applied by a touch. The corn pain ends instantly. Then the corn is gently loosened. In a little while it comes out.

It is folly to pare corns or to treat them in unscientific ways. This new way is ending some 20 million corns a year. It will end yours any time you let it.

Prove this tonight.

Plaster or Liquid **Blue-jay** The Scientific Corn Ender

Variation in Flower Colors.

Variations in flowers are like variations in music, often beautiful as such, but almost always inferior to

WEDDINGS: ANNIVERSARIES: BIRTHDAYS

Table Appointments of Gleaming Beauty and Fascinating Design

MIRROR-LIKE in its depth of lustrous silver, "Holmes & Edwards" silverware sheds a fascinating radiance, making any table setting more brilliant and inviting.

This gleaming, hand-burnished lustre alone would mark the superlatively rich quality of "Holmes & Edwards."

Exquisite, too, in their simplicity and charm are the fascinating patterns—patterns whose exclusiveness is an instant appeal in itself.

But crowning all these merits, "Holmes & Edwards" offers that lifelong satisfaction and joy which comes only from the more generous use of pure silver.

For the quality of silverplate in "Holmes & Edwards" is exceptional. And the pieces most used are protected at the wear points—either by solid blocks of pure silver fused in at the back of the bowl and handle (SILVER INLAID), or by a heavy extra deposit of silver (SUPER-PLATE).

At the better class jewellers.

"Protected Where the Wear Comes"

MAHOOD BROS. PRINCESS STREET

No Race Suicide Here.

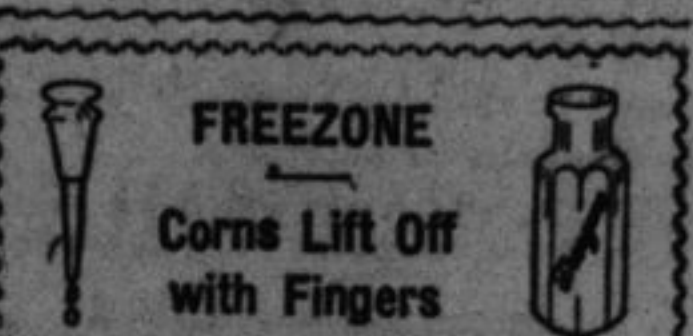

Under the microscope the bacteria found in peat are seen to be animals of the lowest form, which reproduce themselves by splitting into two parts. Under favorable conditions two bacteria grow from one every forty minutes. Those who wish to carry out the mathematical progression will find that a single bacterium will have increased to about 165,000,000,000 in 24 hours. Of course many billions of them die in that time, or they would soon overrun the planet and crowd off every other form of life.

R. Clemens, Grand River railway employe, killed at Centreville by freight train.

GIRLS! LEMON JUICE BLEACHES FRECKLES

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion whiteners. Massage this sweetly fragrant lemon lotion into the face, neck, arms and hands each day and see how freckles and blemishes bleach out and how clear, soft and rosy-white the skin becomes.

To-Save Troubles
A Northern Ontario editor tells of

Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. It doesn't hurt a bit.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without a particle of pain.

Dubious Prospect.

"I saw Dubson dining with his fiancée last evening."

"Did he look happy?"

"Not exactly. Her mother and three older sisters were present. He looked to me like a young man who was wondering if that was just an isolated instance or was liable to become a fixed habit."—Birmingham Age-Herald.

All Want More.

An eastern capitalist says too much money is a bad thing. We have yet, however, to hear anyone admit that he had too much.
