HOLYMAN NO NVM EHL

Outside of politics, quits appear to be as strenuous an outdoor game as the Frontenac U.F.O. old boys care to engage in.

It is noted that while church congregations in the city have decreased, those at the Portsmouth penitentiary have increased.

The good bishop thinks that religious instruction in the schools will lessen lawlessness. The Lampan's view is that the religious teaching is first required in the home, from infancy.

It is good to see the Rev. Dr. John Mackie again on Kingston's streets. Though advanced in years he is still rapid in movement and holds head and shoulders erect. The former Scotch kirk minister is thrice welcome to the limestone city.

The Ontario Medical Association is awaking to the fact that an examination should be set for "specialists". Quite so, for in many cases the public is paying out good money to fake "specialists". This does not apply to Kingston.

And now the question is asked: Do the young men of Gananoque dance without their coats and waistcoats? Perhaps the local ex-mayor of that burg can answer.

While places east of us are paying as high as \$70 a horse-power for electrical energy, Kingston plods its weary way at \$28 per.

The Christian Scientists must be smiling to themselves when they read of the Synod being so impressed with the ministry of healing as to appoint a committee to consider the subject.

Kingston may want population, but it can get along without a certain young woman named Trixie.

Lawyer Joseph Walkem has not only proved himself an able chancellor of the Ontario (ocese, but he is said to have made the members of Synod open their eyes and mouths when he sat down at the piano and played the National Anthem at the close of the session. They also say that he can preach a good sermon.

Even in these hard times, the poor aid the poor. The Lampan is told of a case where some unfortunates who came to town were taken in by a family who had scant fare, but who divided the meagre meal with them. Their action was like that of the widow who gave her only mite and whom the Master commended.

—THE TOWN WATCHMAN.

APPALLING CRIME LIST OF SINN FEIN

Sir Hamar Greenwood Tells of 77 Murders in Two Weeks in Ireland.

London, June 4.—Ireland was again to the forefront during the question period in the house of commons. Lloyd George and Sir Hamar Greenwood, the chief secretary, being bombarded with inquiries regarding recent events there.

The chief secretary said that since Jan. 1st, 1921, six women had been murdered, seven wounded and three kidnapped by the Sinn Feiners. During the fortnight ending May 28th, twenty police, eight military and forty civilian deaths were reported by the police. There were nine assassinations and two attempted assassinations of ex-service men reported in the same period. No evidence incriminating the crown forces was forthcoming during the month of May.

Asked whether the policy of reprisals had received the approval of the cabinet, the prime minister said that the military authorities were authorized to take such action as was necessary and justified by the military code of repression of rebellion and the restoration of order.

COME UP THEY SAY.

The Employees' Terms Received by the Hydro.

Toronto, June 4.—Wage increases averaging \$10 a month are contained in a proposed wage schedule sent to Sir Adam Beck by union electrical workers on the Central Ontario Hydro-Electric System through their organization, the Canadian Electrical Trades Union.

One hundred and thirty men are directly mentioned in the agreement. They are employed in the stations of the system at Oshawa, Bowmanville, Port Hope, Cobourg, Trenton, Frankford, Campbellford, Healey Falls, Peterboro, Millbrook, Lindsay, Fenelon Falls, Lehigh, Belleville, Ivanhoe, Napanee, Deseronto and Madoc. The agreement was sent to Sir Adam yesterday.

Among the conditions which the men are demanding are the eight-hour day, shift employees to have one day off in seven, Sundays and holidays to be accounted as overtime and paid at double time rates, none shall be asked to work in rainy, stormy or extreme weather except in case of absolute necessity, and two weeks' holidays with pay to all employees who have been in the service of the commission for six months or more.

COAL RATES STAND.

Railway Board Declines Western Dealers' Request.

Ottawa, June 4.—Numerous requests have been received during the past week from coal dealers and

other interested parties in Western Canada to make the railway board's general order dated May 21st, 1921, providing for seasonal rates on coal in the prairie provinces, retroactive to April 1st.

After careful consideration, the board has declined to interfere with the order as it now stands, which was passed with two objects in view, first, the forcing of western coal as far east as is practicable, and, second, the storing of as much coal during the summer months as possible, thereby releasing equipment for the movement of grain in the autumn.

Most any girl knows that if a nice-looking young man steals a kiss he should be gentleman enough to return it promptly.

After a woman has been married long enough, she snorts when the heroine in the story turns down the wealthy villain and marries the poverty-stricken hero.

EXTRA PANTS

WITHOUT ADDITIONAL CHARGE

Our Tailored-To-Measure Clothes Represent Today's Biggest Values

Corn Enders

The old sort—and the new

Corns used to be treated by fakery.

But science has found a better way to treat corns. And millions have adopted it.

The modern way is Blue-jay—liquid or plaster. A famous chemist perfected it. This great surgical dressing house prepares it.

Blue-jay is applied by a touch. The corn pain ends instantly. The corn is gently loosened. In a little while it comes out.

It is folly to pare corns or to treat them in unscientific ways. This new way is ending some 20 million corns a year. It will end yours any time you let it.

Prove this tonight.
