ing Industries.

Melbourne, June 16 .- The movement of British capital into Australian manufacturing industries conly, the federal treasurer stated that not less than 10,000,000 pounds sterling of new capital, Australian and British, is proposed to be spent in new enterprises in Australia. From March 22nd; 1920, to February 22nd In Regard to British Cattle 1921, he said that 22 new enterprises or extensions of old ones had been registered with a capital of 3,500. 000 pounds sterling, half of this amount being for woolen and knitting

A large number of foreign (no British) companies are awaiting action on their application for permission to register, which had been held up under the war precautions act. The aggregate capital of these appli cants according to the federal treasurer is 20,000,000 pounds sterling. Regulations have now been issued under the amended war precautions act, and several applicants have been permitted to register.
