**HIS LIFE RUINED BY DYSPEPSIA**

Until He Tried "FRUIT-A-TIVES" The Wonderful Fruit Medicine

MR. FRANK HALL  
Wyevale, Ontario.

"For some two years, I was a sufferer from Chronic Constipation and Dyspepsia. I tried every remedy I heard of without any success, until the wife of a local merchant recommended 'Fruit-a-tives'. I procured a box of 'Fruit-a-tives' and began the treatment, and my condition commenced to improve immediately. The Dyspepsia ceased to be the burden of my life as it had been, and I was freed of Constipation. I feel that I owe a great debt to 'Fruit-a-tives' for the benefit I derived from them."

FRANK HALL.

**Tripp-Francis Wedding.**  
The home of Mr. and Mrs. James H. Francis, Cherry Valley, was the scene of a pretty wedding on June 22nd when their youngest daughter, Blanche, was united in marriage to Clarence N. **Sure Protection For You While You Travel**  
You may find the water bad, some poorly cooked food may excite trouble, a draught from a car window may give you an ache or pain—a cold room or damp sheets may cause rheumatic twinges. Remember this—any pain that is caused by congestion yields rapidly to Nerviline. When your stomach is sour and upset, just try the magical effect of twenty drops of Nerviline in sweetened water. If cramps waken you in the dead of night, Nerviline will fix these awful cramps in a hurry. Keep a 35 cent. bottle of Nerviline in hand—always.

**DO WE KNOW TOO MUCH**  
By CHARLES GRANT MILLER  
(Copyright, 1921. All Rights Reserved by United Feature Syndicate.)

Ignorant indeed is considered the man to-day who does not know more than Shakespeare knew. But Shakespeare produced his marvellous masterpieces because what he did know he did know.

The average schoolboy of to-day knows infinitely more things than his grandfather ever dreamed of. Yet it is to the grandfathers we look for models of excellence in high character, clear thought and rich achievement.

Why? Because while the grandfather's world was a small one, he completely filled it. The abundance and extent of knowledge available to us to-day is astonishing as compared to that available to the ancients. Even the common school pupils of our time are taught immeasurably more than even Socrates, Plato and Homer knew in their ripest years.

But the greatest works come from these ancients. From them we inherit the world's highest literature, its greatest paintings, its finest architecture, its best road building.

Why? Simply because the ancient, while his range of knowledge was small, thoroughly studied one thing and thus completely mastered it. Although the burdens laid upon the mind have been steadily augmented, its powers have not increased. The only hope for us is to make a selection of the thing we will know and master, and in this selected line to emulate the thoroughness of our forefathers.

To him who conserves his forces, concentrates upon the things needful to him, and holds his mind steadily toward a direct and definite purpose, the opportunities for pre-eminent success in any line of endeavor are infinitely greater to-day than they were to the ancient or to our grandfathers.

In a state of society so complex and so advanced in innumerable specialties as ours is we cannot possibly do more than develop a few of our natural gifts. Fortunate is the man who can concentrate upon one. He has been the leader of the world in every age.

cows. They have had many appeals from the Clayton townspeople to put the milk from the dairy on the market, and they have finally decided to do that. From 100 to 150 quarts of Jersey milk will be sold daily.

**Caring For Homeless.**  
The homeless inhabitants of Northport, the Bay of Quinte village, have found asylum in the homes still standing, in public buildings or are quartered among the farmers around the village. The Methodist church shed was the place of refuge for any furniture which had been saved. There is an open door to all who have sustained loss. That the village will be rebuilt is the general opinion. Some of those who suffered loss of their homes have farms in the surrounding territory and are certain to reconstruct their homes.

**Dominion Day in City.**  
Dominion Day was quietly observed in the city. No special features were carried out. The baseball games played at the cricket field in the morning at ten o'clock and in the evening proved the most entertaining events, and were greatly enjoyed by those who spent the day in town. Many private picnics were held at Lake Ontario Park, and the steamer St. Lawrence carried over four hundred excursionists to Alexandria Bay in the afternoon. Napanea provided the greatest attraction to the horsemen, and the whole membership of the Kingston Gentlemen's Driving and Mâtinee Club and many of their families and friends motored to Napanea to witness the events. Kingston horsemen gave up July 1st to the outside places included in the 1,000 Island Short Hop Circuit, in order to give those holding exhibitions on that day every opportunity to make them a success, counting upon their support when an exhibition is held here. It is likely that Kingston will have a two-day (July 24th-25th) meet when the best stables in Eastern Ontario will be represented.

**AT CHRISTIE LAKE.**  
Six Marks Bros. Theatrical Companies Are Camping There. Christie's Lake, June 28.—There was a wonderful rain but the potato crop will not be so large in this vicinity. Edward Stuffer, member of the Arlie Marks Co., will tent opposite Bass Rock. This popular resort is filling up rapidly. Mack Glasscott, Perth, has Alex Island rented from Mrs. Morley White and everything points to a big season. Every available cottage is taken. They are renting tents. Mrs. Suckerloff, Perth, has rented the club house for the rest of the season. Mr. and Mrs. Malcolm Hope, Perth, entertained Mr. and Mrs. John Hope, Perth, last week-end. May Bell Marks was a caller at Fair Haven.

There are six Marks Bros. theatrical companies camping at the lake this season. There are numerous Marks, young Marks, which goes to prove that the Marks family will go on for many years to come and as fast as one company retires another will rise to take its place. Marks Brothers' name is a household word and comes high in quality and quantity. School will soon be over. Mr. Kehoe, official of the C.P.R., has purchased a cottage on the lake. The yacht Mazie took him to his new home. Mr. Danner, Perth, has purchased the home of the late Mr. Rudd, Capt. Crowe, Perth, has rented a cottage from May Belle Marks. Fruit is plentiful in R. N. Marks' orchard. Arlie Marks Co. will arrive soon at Arriedale. Mr. and Mrs. Joseph Marks are enjoying a rest at Ruby Island. Mrs. Chamberlain will arrive at Cedar Point. Mr. and Mrs. Eardley Wilmot have beautiful flowers cultivated. Kenneth Taylor, Belleville, will occupy Sunria. Tom Marks is jolly and quite at home. Master Jack Marks will open up camp shortly.

The first electrically welded ship ever built in France was launched recently at Caen.

**THE INDIFFERENCE**

of the Coal Consumer has resulted in such a small demand for coal at the mines, that they are being operated only at about one-half their usual capacity. Unless Coal is mined during the summer, the Mines will not be able to meet the winter's demand. It is therefore advisable for consumers who can do so, to buy and receive their coal early and thus insure a full winter's supply.
