For Constipation

Kingston and Vicinity

Kingston Man is President.
F. Harper, Kingston, was chosen
president of the Canadian Association
of Stationary Engineers which
has just concluded its thirty-second
annual convention in Ottawa.

Completed to the Camp.
The contractors building the high-
way to Gananoque have completed
the road as far as Barriefield camp.
It was finished just in time for the
opening of the cadet camp.

For the Hot Weather.
We have in stock a few brown
and grey lightweight summer suits
for youths, sizes 34, 35 and 36,
regular price \$18, which we will
sell for \$13. Prevost, Brock street.

Praises the Police.
Canon W. F. Fitzgerald, who was
a spectator of the uproar after the
Brock street hold-up early Sunday
morning, says that what he noted
chiefly was the quick action of the
police in trying to follow up the
bandits.

A Seal in the River.
A seal has been observed in the
river below Ogdensburg by many
people and this water animal, which
has come up from the gulf of St.
Lawrence may shortly be expected in
Kingston harbor to amuse the sum-
mer tourists along these shores.

Parks Drying Up.
The dry weather is getting after
the exposed lawns of the city. Some
of the unshaded parts of the parks
have been hardest hit. The Clarence
street park is one of these and an
effort to bring back the grass by the
use of the hose is being tried.

Lady Wanted Showers.
A lady from the country, telephoned
the Whig office on Monday after-
noon, to ask for the probabilities.
"I hope it will rain," she said.
"Everything is burning up out here.
What is it like in Kingston?"
"Pretty hot," said the scribe who
answered the call.

Goold-Rennie.
St. Mark's church, Deseronto, was
the scene of a pretty wedding, when
Miss Marion Grossart, only daughter
of Mr. and Mrs. Robert Rennie, Brae-
side Farm, Napanee Road, became
the bride of Joseph Ellison Goold,
only son of the late Mr. and Mrs.
A. L. Goold of Kentucky.

Engagement Announced.
Mr. and Mrs. John A. Dowdall,
Merrickville, announce the marriage
of their niece, Margaret Alice Dow-
dall, to Merrill Ross Perrin, elder
son of Mr. and Mrs. George Perrin,
Merrickville. The wedding took place
on the thirtieth of June in Carleton
Place.

Hair Goods Specialist Coming.
Miss Glenn, of Glenn-Charles, Tor-
onto, Canada's hair fashion store,
will be in Kingston on Friday, July
8th, at the Randolph Hotel, with a
full line of ladies' and gentlemen's
hair goods. If you are not satisfied
with the appearance of your hair,
consult Miss Glenn, who is an au-
thority on hair goods and individual
hair styles. Free demonstration.

Hurt in Truck Fall.
Arthur, the eight-year-old son of
Mr. and Mrs. D. P. Jamieson, Smith's
Falls, was enjoying a holiday trip
with one of his brothers on the de-
livery truck of a neighbor, and dur-
ing the homeward run was thrown
off the truck at Frankville, going
over the side and becoming stunned.
A physician there was called, after
which the boy was conveyed home,
and later to a local hospital. Rer-
endered unconscious by the fall, he is
still suffering from concussion of the
brain.

Intense Heat in North.
A member of the Whig staff who
spent Dominion Day and the week-
end in the north country reports that

a serious drought exists there no rain
having fallen for several weeks. At
Arnprior the thermometer register-
ed between 98 and 103 degrees and
he was glad to get back to old King-
ston where one can enjoy life. In
those northern districts vegetation is
parched and in some localities fire
rangers and settlers have to be con-
stantly vigilant in order to prevent
the spread of fires that have broken
out in some places.

Longer Bank Hours.
In view of the daring hold-up on
Sunday morning, when Arthur Hor-
witz, a prominent business man was
held up and robbed of \$700 by arm-
ed bandits, many citizens are dis-
cussing the question of having the
banks opened longer on Saturday.
Under present conditions, the banks
close at 12 o'clock (noon) and money
taken in during the afternoon and
evening has to be kept till the banks
open on Monday morning.

"Saturday is our busiest day of the
week and about noon we are always
very busy at our store," remarked
one merchant, "and it is hard to
get the cash ready for the bank. I
think there should be some move-
ment put on foot to have the banks
remain open longer on Saturday."

Kerrigan-Mitchell Wedding.
The home of John A. Greer, Otta-
wa, was the scene of a very pretty
wedding on Wednesday, June 29th,
when Miss Mary Mitchell was united
in marriage to William Dean Ker-
rigan, Kingston. Rev. J. A. Robin-
son, City View, officiated. The cere-
mony took place under an arch of
evergreens and roses, and the bridal
party were attended by the little
Misses Lena and Laura Greer as
flower girls and ring-bearer. The
wedding music was beautifully ren-
dered by Miss Irene Green.

The bride looked girlish in a gown of
ivory satin, and she wore the gift of
the groom, a pearl necklace. The
groom's gift to the pianist was an
onyx ring, set with pearls. After a
supper the happy couple left for
Montreal, the bride wearing a suit
of nigger brown tricotine, with mo-
hair hat. On their return they will
reside in Kingston.

Death of Patrick Harty.
There passed away in his 88th
year at his residence in Ottawa, on
Sunday an old and respected citizen
in the person of Patrick Harty, for
many years superintendent of lights,
Ontario division, department of
marine. Previous to going to Ottawa
Mr. Harty had been engaged in the
dry goods business in Kingston and
Peterboro, in which cities on account
of his kindly and genial disposition,
he had made hosts of friends.

In his earlier days in Ottawa Mr.
Harty was associated with many
charitable and philanthropic orga-
nizations, always taking a keen and
active interest in matters concern-

ing the welfare and uplift of human-
ity. Since his retirement, some few
years ago, from the government ser-
vice, he lived quietly at home with
his family.
Mr. Harty leaves to mourn his
loss, one son, W. P. Harty, of the
department of railways and canals,
Ottawa; and two daughters, Mrs. T.
J. Noonan and Miss Mary E. Harty,
both also of Ottawa. His wife pre-
deceased him about fourteen years.
He was an uncle of Hon. William
Harty, Kingston.
The funeral was held on Tuesday
morning at 8 o'clock.

An Aid to Wearing
This Season's Fashions
(Helps to Beauty)
Here is a simple, unfailing way to
rid the skin of objectionable hairs.
With some powdered delatone and
water make enough paste to cover
the hairy surface, apply and in about
2 minutes rub off, wash the skin and
every trace of hair has vanished.
This is quite harmless, but to avoid
disappointment be sure to get the
delatone in an original package.

CELEBRATION AT ODESSA
To Mark Birthday of Mrs.
Harriett Tompkins, Aged
Ninety-one.

MRS. HARRIETT TOMPKINS
The above is the photograph of
Mrs. Harriett Tompkins, who was
ninety-one years old on June 21st,
1921. The celebration of her birth-
day took place at the home of her
daughter, Mrs. D. B. Rutnan, Odes-
sa, and was the occasion for a fam-
ily re-union, when there were pre-
sent two sons, three daughters, sev-
enteen grandchildren and six great-
grandchildren, four generations in
all. They were Mrs. Tompkins, her
daughter, Mrs. Rutnan, the latter's
son, Clarence, and his son, Harold,
aged three years.

Mrs. Tompkins was born in Eng-
land, a daughter of Mr. and Mrs.
Pearson, who came to Canada when
she was six years of age; and she
was one of six daughters and six
sons. The family settled at Napa-
nee, and at the age of sixteen she
married Joseph Tompkins and moved
to a farm at Camden. She has three
sons, Charles, Watertown, N.Y.;
John A., Bath; Frank, Newburgh,
and one daughter, Mrs. D. B. Rut-
nan. All were present at the cele-
bration, except Charles.

The occasion was one of much
enjoyment, for Mrs. Tompkins is
still smart, despite her years, and
appreciated the warmth of the con-
gratulations showered upon her. A
splendid musical programme was
given. Her husband died forty-six
years ago, and she resides with her
son, Frank, at Newburgh.

Japan is estimated to have \$22-
000,000 metric tons of available coal
lying not more than 2,000 feet be-
low drainage level and nearly 3,000-
000,000 metric tons at greater
depths.

When the cave man tugged and strained with all the might of his
brawny sinews to roll a big rock before the opening of his primitive home,
finally having to give up conquered, he then began to use his brain. With
his aid he found that a stout stick with one end inserted under the rock
gave him a leverage that increased his power.
The lever was a handy thing, once it was discovered. It has
enabled man to do countless things before impossible.
Our knowledge of its possibilities is by no means completed.
The lever which is of most consequence to the man of to-day is
trained ability.
We may try all kinds of other levers, but for getting results they
are all like tack-pullers where one needs a crowbar.
Employers would much rather be increasing salaries than reducing
them or hiring cheaper help, if the investment in the employee would
pay profit.
Employers all firmly believe, as someone has said, that "Anybody
can cut prices, but it takes brains to make a better article."
A sarcastic businessman expressed the idea concisely and showed
that he himself felt the need pretty keenly, when he nailed up this sign
in his office:
"Don't think—you might be discovered. Don't improve—you
might get a raise in pay."
Many an employer, if he dared to think for himself, might discover
latent talent among his employees, and if he were capable of self-improvement
might find a way to keep his organization working intact through
the twelve months of every year.
One of the wisest old men in American business has said: "What
we call 'hard times' are the best times for the man of true ability and
real courage. It is in periods of general slackness and disorganization
that the real master gets the best of his competitors' business and the
best of their men. When the resistance is hardest he applies the lever
hardest."

THE INDIFFERENCE

of the Coal Consumer has resulted in such a small demand for
coal at the mines, that they are being operated only at about
one-half their usual capacity.
Unless Coal is mined during the summer, the Mines will
not be able to meet the winter's demand.
It is therefore advisable for consumers who can do so, to
buy and receive their coal early and thus insure a full winter's
supply.
