WOMEN INJURED WHEN AUTO OVERTURNED

Two Cars Racing at Time—Injured Women Brought to Kingston.

A bad accident occurred two miles west of Odessa at 5.30 p.m. Friday, when a car containing two women and two girls, was overturned and toppled on to a fence at the roadside, pinning one of the young women underneath. The car had the two front wheels smashed to bits and the windshield broken. Two of the occupants were hurt.

It appears from what can be learned about the affair that there were two cars and they were racing along the road at very high speed, one car driven by the women and the other by a man, who had a load of huckleberries. When the car came to grief, the other was stopped and the occupant came to the assistance of the injured and conveyed them to Kingston. The wrecked car belonged to Mr. Hay, Ardendale, and Van Laven Bros., Kingston, sent out their service car, put on new wheels and made other repairs so that Mr. Hay was able to proceed to his home.

ST. ANDREW'S HIGHLAND CADETS CARRYING ON

Training Throughout Summer—Hold Summer Races Saturday Afternoon.

The training of the St. Andrew's highland cadets is progressing favorably, and notwithstanding the warm weather, the boys remain enthusiastic and turn out to the various parades in good numbers. A supply of uniforms has been ordered, but in view of the weight of the red tunics and tartan trews, will not be worn on parade until later in the year. In the meantime, the cadets will parade in khaki with Glangarry caps. In the cross country run held recently, Cadet Melville Jamieson was awarded the silver medal for first place, whilst the Rotary Club's Cadet, Lewis Richards, who came in second place, received the bronze medal. Cadet Vince was third to reach the finishing point, and was awarded a Cadet pin. Lord Atholstan's cadet, Company Sergeant-Major Earl Pigeon, won the running long jump, with Cadet Vince second. The swimming races of the highland cadets will take place this afternoon, and it is expected that the several events will be closely contested. It is the intention of the highland cadets to proceed to camp in the vicinity of Kingston during the summer, and a plan of operations is being mapped out similar in many respects to the infantry trek of the gentlemen cadets of the Royal Military College.

A pleasant time was spent, a splendid supper enjoyed and races and sports indulged in. Races for everybody, seventeen in all, were held and every child received a prize. A scramble of cancelled for old and young alike was provided by the committee. It was a tired but happy crowd that returned to the city about eight o'clock. The committee: Prof. J. O. Watts, W. H. Dyde, T. Stewart, T. Driver and J. M. Elliott, were in charge of the picnic and saw that everybody had a pleasant time.

LEUT.-GOVERNOR ROGERS?

No Longer Cabinet Possibility Has Chance for Reappointment.

Ottawa, July 9.—An interesting bit of news from Winnipeg today is the suggestion of the possibility of Hon. Robert Rogers being appointed Lieutenant-Governor of Manitoba in succession to Sir James Aikens whose term of office expires next month. Sir James does not seek re-appointment.

Of Mr. Rogers' future there has been considerable speculation of late, and various reports of his reaching an entente with the prime minister have been in circulation. In some quarters he has been mentioned as a cabinet possibility. It is now reported that while this is improbable Mr. Rogers may land in the Government house at Winnipeg. Such appointments being the personal prerogative of the prime minister there will be no development until Mr. Meighen returns at the end of the month. George Allen, M.P. for South Winnipeg, is another who is being mentioned for the position.

Beneficial Effects Of School Fairs

School fairs are to the boys and girls of the land what the larger fairs are to adults. By this time they should be thoroughly organized; prize lists published and circulated and programmes of proceedings prepared, and the two indeed given in one publication. These fairs increase in number every year and are proving of incalculable value in the agricultural education of the young and even in beneficially influencing the more mature. Of course boys' and girls' clubs are the principal feeders of the fairs, but entries are usually accepted from children who are not members of any such organization. Agricultural representatives all testify to the splendid effects the fairs are having upon farm life and agricultural pursuits generally. One, for instance, writes: "I do not know of any one thing which is a greater factor in improving the farm production and the farm industry of the country than the school fairs. In addition to bringing direct, practical results, school fairs have had a very effective influence in encouraging teachers to take up the teaching of agriculture in the public schools." Another says: "The importance of the school fair cannot be over-emphasized. It teaches our future farmers how they can take the most out of the soil. It makes our rural people better and happier." In recognition of the truth of the old adage, "All work and no play makes Jack a dull boy," a programme of sports is usually included in the day's list of proceedings.

J. W. CURRY TO RESIGN.

Globe Says He Will Give Up Seat in Legislature.

Toronto, July 9.—It is understood that the resignation of J. Walter Curry, K.C., of his seat in Southeast Toronto, will be placed in the hands of Hon. Nelson-Parliament, speaker of the Legislature, within the next few days. Mr. Curry, it is said, is to receive an appointment from the government which will take him out of the political field.

Hon. W. E. Raney would not confirm the report that a position awaited Mr. Curry. Apparently, acting upon information, the Liberals of Southeast Toronto are preparing to contest the seat in a bye-election. Mr. D. W. Markham, law partner of Controller Russell Nesbitt, is the most probable candidate.

Mr. Curry is at present in St. Michael's Hospital recovering from an operation he underwent there on Monday.
