ABLE TO FOLLOW ANY TRAIL. Among the Most Skillful Trackers in the World. The Ahnds, natives of Jaum, India, are among the most skillful animal trackers in the world, according to R. G. Burton, writing in the Field. They track bears, panthers and other jungle creatures by a mere shadow of a footprint and also by "marking," a system of watching. When "marking" animals the natives turn out before sunrise and scratch the animals as they sink back to their lairs. Then when the hunters take a position of vantage the marker's aids surround the animal on three sides, and drive it out from cover. The Ahnds often track bears across solid rock, where the creature's claws, scratching the surface, leave a mark. The panther's tread is so soft that no impress is made, save where the ground is soft enough to take the pug of the pussyfoot, and yet they track these war animals when they show near the village. Income Up to \$800 Exempt. Beginning with the 1922 assessment and tax levy income up to \$800 from investments will be exempt from civic taxation. Everything over \$800 will be taxable. For 1921 and in past years, payment had to be made on the entire amount, but a change was made in the law at the last session of the legislature. Every man knows a lot of remedies that he is always recommending to other people but wouldn't think of taking himself. If a woman fails to understand a man they are on equal footing.
