**The Case Settled.**  
The damage claim of William  
Pearson against Napanee for injuries  
sustained by his son by falling into  
a town sewer opening, the action was  
settled by the payment of \$150 to  
Mr. Pearson by the town.

sion at Ottawa elected the following

**Repairing The Highway.**  
The road to the village of Cains-  
raqui from the city limits is being  
oiled and repaired. The motor oil-  
ing machine is here and is doing the  
work in quick time. All the bad  
places in the road are being filled  
and the road put in perfect condi-  
tion. The road for about seven

miles from the city limits is to be re-  
paired. At present the machine is  
near Cataract.

**Won The Gold Medal.**  
The gold medal presented by E.  
A. Dunlop for the Pembroke pupil  
passing with highest honors was won  
by Ina St. James, pupil of Pembroke  
convent, while Martha Voelker, Pen-  
brooke public school, won the Alex.  
Millar gold medal for the second  
highest honors.

**Sunday School Picnic.**  
The Sunday school picnics are  
about over for another season. Some  
of the schools have not had as large  
crowds as last year. The extremely  
hot spell during the last few weeks  
was probably responsible for keeping  
some of the people at home.

**A Couple Married.**  
Albert J. E. Garlach, Cape Vin-  
cent, N.Y., and Miss Muriel Evelyn  
Whittier, Brownville, were married  
on Thursday by Rev. E. B. Doolittle.  
Mr. Garlach is a son of Mr. and Mrs.  
Peter Garlach, Cape Vincent and  
Miss Whittier is a daughter of Mr.  
and Mrs. George M. Brownville.

**Passed His Examinations.**  
Congratulations are due to Master  
Elwood Holder, the little nine-year-  
old son of Mr. and Mrs. Walter Hold-  
er, Bladworth, Sask., who success-  
fully passed with honors his intro-  
ductory piano examinations in music.  
Mr. and Mrs. Holder formerly lived  
at Perth Road.

**Calls For Attention.**  
There are many bumpy places on  
the city walks. The cement blocks  
have sprung up at some points and  
an inch or so stands above the walk.  
Some day some one in the darkness  
will stumble at the obstruction and  
injuries will ensue which the city  
will likely have to pay damages for.  
A careful examination should be  
made of all walks and necessary re-  
pairs at once made.

**A Postcard Shower.**  
Miss Alice Webster, Charleston, re-  
ceived a pleasant surprise on July  
14th, her birthday, when a postcard  
shower was given her. Miss Web-  
ster has been an invalid ever since  
she was a small girl and the shower  
on Thursday was much enjoyed, it  
being her seventy-sixth birthday. She  
received 139 cards and a box of  
chocolates.

**Had A Good Time.**  
At Christy's Lake the out-door per-  
formances given on the verandah of  
"Red Cedar Villa" were a great suc-  
cess. There was a very large attend-  
ance, although the weather was the  
hottest in years. The next perform-  
ance of this kind was held on July  
20th. A new play was produced with  
ice-cream and specialties between  
acts, and after the play there was  
free dancing.

**Algonquin Park, Ontario.**  
Algonquin Park, the popular re-  
sort 170 miles west of Ottawa, is the  
mecca this year for a large propor-  
tion of the ever increasing brother-  
hood of tourists. The Grand Trunk  
operate three summer hotels in this  
district and first class accommoda-  
tion is offered at reasonable rates.  
2,000 feet above the sea level, the  
air is pure. Fishing (black bass,  
speckled trout and salmon trout) is  
better this year than for many years  
past. September is a beautiful  
month in this district, and if you are  
unable to get away in July and Aug-  
ust, make your reservations early for  
September. Illustrated descriptive  
literature, telling you all about this  
territory may be had on application  
to J. P. Hanley, C.P. & T.A., G.T.  
St., Kingston, Ont.

**Campers Are Happy.**  
The campers at East View Park,  
the most popular summer rest spot  
on the River St. Lawrence below  
Kingston, have been a very happy  
family throughout the period of tor-  
rid heat. There are about two hun-  
dred persons residing within hal-  
ling distance of each other, and the  
conditions of camp life throw them  
very much together so that there is  
a mutual feeling. The time is spent  
in boating and fishing by the young-  
er members until the heads of the  
families are able to break away from  
business in the city for a two weeks'  
vacation. Then there is a new spirit  
observable. The latest development  
is in baseball, the boys challenging  
the grown-ups to a game in terms of  
defiance. The result of the games to  
be played is awaited with great in-  
terest.

**East View camp is the result of**  
the energy and business enterprise of  
Rev. J. D. Boyd, who first acquired  
the site and erected summer homes.  
Most of them are now private hold-  
ings and there is a splendid commis-  
sary service.

**Opened Another Office.**  
After a six weeks' survey of west-  
ern conditions, J. E. McConnell, pre-  
sident of McConnell & Ferguson,  
Ltd., a national organization for de-  
veloping advertising, recently open-  
ed a branch of his company in Van-  
couver. Hitherto Winnipeg has been  
the farthest western point of any of  
the national agencies, but Mr. Mc-  
Connell came to the conclusion that

**WASTE BY WEALTH**  
By CHARLES GRANT MILLER  
(Copyright, 1921. All Rights Reserved by United Feature Syndicate.)

Rubbish.  
Waste.  
Useless stuff that men throw away and paid to have carted off to the  
dump.  
That was the basis of one of the greatest fortunes in England and  
the stepping-stone to a peerage.  
An English manufacturer, who died the other day, had a career  
which was one of the most remarkable romances the world of invention  
and manufacture has ever known. As a young man he was a spinner in  
Yorkshire, who had mastered his trade and owned some mills. One  
day when in London he came across a heap of silk waste mixed up  
with dirty rope ends, leaves and sticks, all knotted together.  
"What is that?" he asked.  
"Oh, simply rubbish. It is impossible to do anything with it," was  
the reply.  
But the trained young spinner of Yorkshire knew better. He bought  
the great heap of waste at a half penny a pound, and was laughed at.  
For nearly ten years all the profit from his mills went into experi-  
mental machinery for the utilization of this waste. Then came the start-  
ling announcement that he had produced a machine which at small cost  
turned the waste rubbish into beautiful fabrics. The result is that to-day  
waste silk pours into the great Maningham mills from all parts of the  
world to come forth worth hundreds of thousands of pounds.  
In nature, there is no waste. It is only because of man's limitations  
that the world is littered with what seems to him rubbish. Some day a  
ray of genius falls upon a dead heap of waste and turns it into gold.  
We are apt to look to fiction for our romances; but the richest  
romances of human life are found in everyday fact.
