KIWANIS CLUB LUNCHEON

Prof. Mitchell Appeals for Proper Immigration Laws.

"Canada is the future nursery of the Great Nordic race, if that race is to be preserved as the dominant race in the world.

This was the declaration of Prof. Mitchell in a most entertaining and instructive address, at the weekly luncheon of the Kingston Kiwanis Club, held in the Hotel Frontenac on Monday. The reason for this, according to the professor, is the fact that when the races migrate to the southern latitudes, it degenerates and in time is bred out by the southern races. This was so in Greece and Rome, empires built up not by a southern race but by tribes of Nordic races from the Baltic shores.

The Nordic race was essentially an outdoor race. Prof. Mitchell did not think that the United States was keeping the race pure. There was a real race problem there, of which Canada was free and Canada will be the nursery of the great Nordic race of the future if it is to survive.

"Eddie" Rees, dealer in confectionery, put on the silent boost, and in addition to providing samples of Nestlé's Swiss milk chocolates, donated a number of fine prizes which were won by the following: R. J. Rodger, who gave a splendid testimonial to Mr. Rees; R. J. Gardner, F. J. Hoag, D. Holton, G. Bawden, I. Cohen, W. H. Graham.

Willfred de la Ronde sang two solos in splendid voice; "The Jolly Kiwanian," and "I Fear No Foe in Shining Armor," and was greeted with applause. He was a discovery of Harold Hughes.

The announcement was made that the delegates from Ottawa will be in the city next Saturday and will play baseball with the local team.

Upon the request of Sam Corbett, the following members volunteered their care for Wednesday, at the Mowat and Sydenham hospitals: L. C. Lockett, R. E. Burns, W. J. Keeley, B. Barnum, H. W. Newman, F. Clow, M. G. Johnston, G. Lockett, Major-General Macdonnell, E. Sparks, George Gillespie, W. Craig, S. Hill, "Bob" Bushell, H. Wilder.

Prof. Mitchell, who is known as a most entertaining speaker, fulfilled the expectations of his select audience, by presenting a very serious subject, enlivened by flashes of wit, in a very effective manner, considering the limited time at his disposal. While Canada has been described by many speakers as the country of the future, few realize the great truth of the statement, for that future holds the destiny of the great Nordic race of which the Anglo-Saxon is a branch. We must think in centuries to understand what this means.

It is a law of the universe that the superior and finer elements were always subordinate to and were dominated by the coarser. An example was the earth to the sun, man to the earth and the female to the male. Woman must ever be subordinate to and be dominated by man. The speaker deplored the whole feminine movement as being utterly wrong. Why did we come to allow as much power to woman? In the beginning, primitive women were on an equality with men and we find that at the great Iroquois Council in America, women had the franchise so that now we see in the whole feminine movement a return to savagery.

The human race has five important

ASPIRIN

Only "Bayer" is Genuine

Warning! Take no chances with substitutes for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuritis, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monaceticacidester of Salicylicacid.

For New Styles and Pretty Arms

(Beauty Notes) Women are fast learning the value of the use of delatone for removing hair or furs from face, neck or arms. A paste is made with some powdered delatone and water and spread on the hairy surface. In 2 or 3 minutes it is rubbed off, the skin washed and every bit of hair has disappeared. No failure will result if you are careful to buy genuine delatone and mix fresh as wanted.

divisions, white, yellow, black, brown and red. The white has been the dominating race, but it was not a southern race, but born in the north, and nurtured by the rigors of the northern climate. It produced branches of which the Anglo-Saxon is one, that through the centuries have from time to time dominated the world. This Nordic race was cradled in N. W. Russia, Germany, Denmark, Norway, British Isles, Northern France and British North America.

This race was cradled about the shores of the Baltic about B. C. 8000. The people lived in small communities. They were hardy, enterprising, independent and hard drinkers. They had to have a stimulant, something that could be easily carried and would reach the spot quickly. About 2000 B.C. they were conquerors of India, but after a few years being in small numbers, they were bred out by an inferior class and breed. It was from the same Nordic race the empires of Greece and Rome were formed, and gave their civilization to the world, but they could not remain in the south and it is safe to say that by the end of the first century, the Patricians, whom they were, were bred out. It is a fact that every time the tribes from the Nordic race went south, conquered and built empires, they in time, succumbed and were destroyed. We can't go south any more, but we are going west and we have the territory right here for a great and numerous people.

"I do not say that the white race is better than any other, but it has been the dominating one. It was for the other races to develop superiority in the arts, such as the Italians and music."

The Nordic race was essentially an outdoor race. Prof. Mitchell did not think that the United States was keeping the race pure. There was a real race problem there, of which Canada was free and Canada will be the nursery of the great Nordic race of the future if it is to survive. We must have proper and wise immigration laws and live the kind of life that must be led out of doors. Our race "goes to pot," when it goes into factories. We must encourage an outdoor life of some kind that will breed hardy men, and we must solve the women problem properly. The main duty is to see the race carried on.

A hearty vote of thanks was tendered to Prof. Mitchell by president Hoag, for his splendid address.

CONTINUED DRY WEATHER

Is Hard on the Pastures and Gardens Around Northbrook.

Northbrook, Aug. 8.—The continued dry weather is affecting pastures and gardens. Fire is raging in the Ruttan woods and much danger has been done. Rev. Lees and Mrs. Nelson Scott hold revival meetings in East Corner nightly with good results. No building has started since the fire swept the two stores, but erection is expected soon. Mr. and Mrs. Elijah Thompson are visiting friends in the Pleton district. Mr. and Mrs. Martin Cassada have returned to Toronto after a few weeks' visit at W. Cassada's. Mrs. Robert Erwin and son, Ernest, Belleville, are spending their vacation at Mrs. John Smith's.

C. C. Thompson has bills up for a private sale until August 15th. Everything is being disposed of by Mr. Thompson, before he rebuilds and opens for business again. Our magistrate, J. L. Lloyd, is being rushed with cases from the south. Many from here attended the trial of Kenneth Tryon, Thursday, but were disappointed to find the case tried privately. Ice cream is again kept in the village. Miss Hazel Black, Harlowe, is assisting Mrs. William Both in the store. Mrs. Weese, Napanee, is visiting her mother, Mrs. William Nevin. William Kehoe purchased a car from F. Haslotte, Tweed, last week. Many tourists en route to Bon Echo summer resort pass here daily and speak highly of the accommodations.

Apparently all parties who lost in the fire in July are receiving what insurance they had without difficulty. Mrs. George Shiers \$400 on her large barn; C. C. Thompson \$3700 on store, hall, store house and contents, and Elijah Thompson \$5000 on his store, dwelling and contents. The companies have been prompt. Sam Booth, clerk of the Ore Chimney Mining Company, went to Smith's Falls, August 4th, and was quietly united in marriage to Miss Watson of Winchester. Mr. and Mrs. Booth are spending their honeymoon in Montreal, among the Thousand Islands, Buffalo and Niagara Falls, and will in future reside at the White House on the mine property. Their many friends wish them years of prosperity and joy.

Get Four-Year Terms. Milton, Aug. 9.—Hugh Adair, aged twenty-one, and William J. McMillan, aged twenty, both of Oakville, were arraigned before Judge Elliot here on the charge of stealing a touring car from E. F. Noyes of Oakville. Both prisoners pleaded guilty and were sentenced to four years each in penitentiary.

Execute Russ Peasants. Riga, Aug. 9.—Intercepted Soviet wireless messages tell of the execution, as examples, of a number of rich peasants who refused to pay the Moscow government produce tax and had hidden their grain. The messages also report bandit bands in the Saratov district, pillaging and burning what little remains of the crops.

Another Kaladar Arrest. Thomas Jackson, of Addington, a settlement about four miles west of Kaladar, was arrested on Saturday on a charge of making a criminal attack on a young woman, the daughter of James Beatty. Jackson was taken to Napanee jail.

PROBS.—Wednesday, fine and warm.

Many Extraordinary Shopping Opportunities Wednesday

Sale New Fall Dresses \$14.95

Advance Fall Models. Quite Different From Anything Hitherto Shown.
