**BUDGET FROM WELLINGTON**

Meeting of Directors of West Lake Sand, Lime Brick Co. Wellington, Aug. 9.—The directors of the West Lake Sand and Lime Brick Company, of Buffalo, met at their plant at West Lake. This is a new company, the former members having dropped out, and about fifteen of the new members met at the plant with their wives. The party registered at the hotel here, and motored to the works, where an unusually large assortment of fine bricks had been prepared for their inspection. Forty thousand bricks per day can be turned out by this company, and the man in charge is an expert. The very latest presses are used, each weighing fourteen tons. The sand from the mammoth hills at West Lake is claimed to be far superior to any other for this purpose. Orders have already been received for millions of bricks, and work is being rushed along steadily at turning them out. The members of the company left for Buffalo by train on Friday morning, all expressing themselves as much pleased with the product of the plant.
