Three Years of Suffering Quickly Relieved by "FRUIT-A-TIVES"

MR. GASPARD DUBORD

159 Avenue Pius IX, Montreal.

"For three years, I was a terrible sufferer from Dyspepsia and my general health was very bad. I consulted a physician and took his medicines and faithfully carried out his instructions; but I did not improve and finally the doctor told me I could not be cured. At this time, a friend advised me to try 'Fruit-a-tives' and I did so. After taking two boxes of 'Fruit-a-tives', I was greatly relieved; and gradually this marvelous fruit medicine made me completely well. My digestion and general health are splendid—all of which I owe to 'Fruit-a-tives'."

**The Atmosphere Was Heavy Too.**  
This has been the most exceptional summer in the memory of most old timers in Kingston. Beginning with

the excessive heat it has provided heavy winds, occasionally heavy rains and recently storms that made old mariners tremble as they set out. Such peculiar weather has not been seen here for many years.

"**TOO FAMILIAR**"  
By CHARLES GRANT MILLER  
(Copyright, 1921. All Rights Reserved by United Feature Syndicate.)

A good many girls, launched into society and queuing husbands, and a good many young men, building up practice or a business, believe that they help themselves by taking and giving many confidences and by getting as close as possible to persons whom they meet. But the girl who opens her soul to every man finds in time that men flee before her. A girl must be exclusive if she would be highly appreciated. The value of confidence, like the value of wheat and potatoes, is regulated by the supply.

Neither will people employ doctors or lawyers whom they know intimately. It is better for a lawyer or a doctor to know a great many people slightly than to be entitled to call all the young women by their first names and to invite himself to family meals.

It cheapens one's confidence to make them too common. There are men and women who expose their minds to every one with whom they are on terms of familiarity. The whole world knows the private business, the secret thoughts and emotions, the domestic trials and troubles, the follies and sins of such persons. And such persons, while they have many intimates, have few real friends. It is better to have a few intimates and many friends. The excellent quality of reticence is almost an essential element of success. More people have hurt themselves by telling too much than too little. From practical as well as sentimental standpoints it is prudent to keep most people at a distance and to become familiar with only a few.

Nature seems to have so planned that one chum, or one sweet-heart, or one wife, is sufficient to one's needs of soul-close companionship.

old building is now fully completed. The transformation in the operating department especially is really wonderful; and the accommodation there now is surpassed in few city hospitals.

**To Go to Brantford.**  
Angus Buchanan who has for nearly three years been boys' work secretary at the Belleville Y.M.C.A., has accepted an offer to a similar but more lucrative position at Brantford. His duties will begin on Sept. 1st, on his return from the Canadian Camp of Boy Workers held at Algonquin Park.

**Caught a Fine Bass.**

**Scholarly Sermons.**  
Rev. John LaFlair, Kingston, who with his family is visiting at the Maynard farm, west of this village, conducted the services at the Presbyterian church Sunday morning and evening. **Get Ready Now.**  
About four weeks more, then the coal bin and the other things that are essential for future comfort. Strange, isn't it, how fast the seasons travel? No one, however, will have any reason to say that this summer was not a good, old-fashioned one and just the kind ice cream dealers and ice men wanted. They surely had their innings in 1921.

**Lost a Valuable Horse.**  
Fred Stanzel, Carleton Place, sustained a serious loss a week ago when that handsome gray dray horse of his was drowned. The dray was at the Bates & Innes factory and while the teamster was inside the horse walked down to the river bank to get a drink. The heavy wagon bore so heavily upon the retaining wall the weight pushed him over into the water and the wagon going over on top of him pinned him down until he was drowned.

**Board of Education Quarters.**  
When the time arrives for the transfer of the Bank of Montreal from the city buildings, to the new office to be erected, the vacated rooms would suit admirably, the Board of Education. It is quite desirable that all the civic institutions should be housed in the city hall, and this would give the Board of Education the proper setting to their work. There is ample room for a board room as well as the quarters for the Board of Education staff.

**Cholera Infantum**  
Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months, and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dreaded summer complaints. Concerning them Mrs. Fred Rose, of South Bay, Ont., says: "I feel Baby's Own Tablets saved the life of our baby when she had cholera infantum, and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Charleston Lake Association.**

A committee was appointed to arrange for the marking of the dangerous shoals. It was decided to request the fishery department to appoint a salaried fishery overseer for the lake. The following officers were elected: President, L. M. Davison; vice-president, C. J. Banta; treasurer, E. C. Tribute; secretary, S. C. A. Lamb; board of governors, Mrs. M. A. Johnston, Wm. Gleichman, L. G. Earl; convener for annual picnic, Mrs. M. A. Johnston. The treasurer's report showed \$192.52 in saving bank department and \$59.50 in current account.
