Our Opinion to a Dot.

St. Thomas Times-Journal In Toronto and St. Thomas, and doubtless in other places that held their civic holiday on Monday, the postoffices were only open for a limited period and the various departments either closed or greatly curtailed, while no mail delivery was made. The postoffice, however, is a public, Dominion-wide service that ought not to be interfered with by purely local arrangements. Even national holidays should see no total disruption of service, such as during the past year or so has taken place in the delivery of mail in cities. A majority of holidays fall on Monday. and in such cases there is no delivery between Saturday and Tuesday, and in some instances between Saturday morning and Tuesday. No such disruption is permitted in the privately-owned railway, telegraph, telephone and similar concerns serving the public. Even the railway mail service is not permitted to lag. A morning delivery on all holidays. such as takes place on Christmas, should be insisted on all the year

President.

We have no sentiment against holidays for civil servants. These are as much a necessity to them as to persons employed in other walks of life. But public servants enjoy advantages in important respects that are lacking in many other occupations and should be prepared to accept any dis-

Colds, when neglected or badly treated give rise to not risk using inferior preparations.

THE welfare of new agricultural communities in this Province requires that land clearing be done with the cheapest agent at hand-Fire. Therefore, restrictions must hamper settlers as little as is consistent with safety to lives and property. Disastrous experience proves that in hot, dry weather unregulated use of fire in thickly wooded Northern Ontario means a menace to the lives and property of settlers and destruction of the provincial forest resources upon which a large part of Ontario's revenue and the livelihood of thousands of her citi-

That is why Ontario adopted a "Close Season" and the "Permit System" for setting out fire. But, remember, whether you have a permit or not, you are responsible for damages caused by any fire you light. Be careful—

Save Ontario's Forests They're Yours

The "Close Season" for setting out fire in Northern Ontario is from April 15th to September 30th. During that time within the Permit Area no one may set out fire for clearing land, disposing of de-bris or other inflammable waste, or for any industrial purpose, without first obtaining a written fire permit from a Fire Ranger. This applies not only to settlers but to railway section crews, camp and mill crews, road builders, including Government employees, and all other per-

When starting fire for cooking and camping, the law requires that a place be selected free from inflammable material, that every reasonable precaution be taken to prevent such fire spreading and that

fore quitting the place. The "Close Season" applies to all Ontario north of Bobcaygeon and Smith's Falls and west of the line

it be thoroughly extinguished be-

from there to Renfrew. The Permit Area includes those parts of Nipissing, Sudbury, Temis-kaming and Algoma lying north of the C.P.R. between Mattawa and North Bay and north of the C. N. R. westward to a point some 35 miles beyond Hornepayne.

The remainder of the Province forms the Exempt Area. Within the sparsely peopled Exempt Area no permits are generally issued, but those setting out fires in the "Close Season" are required to exercise every reasonable precau-tion and a Chief Fire Ranger, if he deems it wise, may serve a Prohibitory Notice and require a person to take out a permit.

The Fire Ranger does his best to follow the happy medium be-tween the desire of the settler to "get a good burn" and the require-ments of Public Safety. Help him all you can.
