**It's There When You Want It**

It has been observed that during periods of financial unrest, Canadian Government and Municipal bonds maintain an exceptionally high principal value. This is an important factor in the eyes of the investor, for it means that his principal is "there when he wants it."

These bonds can be bought to-day to yield substantial interest returns—ranging in the case of some Municipalities as high as 7%.

The five weeks vacation allowed to Rev. J. Reble by his present congregation at Linwood which he and his family spent visiting the members of his former congregations here in Denbigh and in the township of Raglan, ended last week, and they left again last Wednesday for their present home and field of labor, well pleased with their visit. During his stay here he conducted divine services on two Sundays, administered holy communion once, joined a happy couple in holy bonds of matrimony and baptized four infants.

Herbert Warlich, Roy Chatrow, Wm. Ready and John McLaughlin left with the first barvester's excursion train for Webb, Sask., where they have already engaged work. Miss Katie Marquardt and Mr. and Mrs. Summer, Ottawa, have arrived on a visit to the ladies' parents, Mr. and Mrs. E. Marquardt.

When they heard an auto coming behind them they turned out to leave road clear for it, but just as the car, driven by its owner, Wm. John, was about to pass them the horses got scared and became unmanageable and backed the buggy in front of the car. The occupants of the buggy were thrown out, but besides a severe shaking up they escaped serious injury and were able to attend the service. The buggy was smashed to pieces, but the horses escaped without injury.

**Notes From Verona.**

Verona, Aug. 11.—The farmers here have finished their grain harvest and are now looking after their marsh hay which is a good crop for this season. Potatoes will be at a premium this year as it will keep the farmers busy to find enough for their own use. The dry weather has affected the pasture lands to such an extent that the milk supply is far below the average for this season of the year.

Verona has quite recovered herself from the effects of the recent disastrous fire, and the business blocks and dwellings which have been erected would do credit even to a city.

The tourist traffic has assumed larger proportions this year than formerly and many fine cars are seen daily wending their way to the beautiful lake district of Centre Frontenac, many of which carry American markers. The proprietors of Pine Cliff cottage, situated on the lake here, have entertained a large number of visitors this summer.
