To-morrow's HOROSCOPE

By Genevieve Kemble

SUNDAY AND MONDAY, SEPTEMBER 11-12.
Sunday's horoscope is not a very important one for worldly activities, although its principal figure points to introductions to helpful and powerful friends, as well as favors from superiors. Honors and preferment may be sought or planned.

Those whose birthday it is are in line for promotion, if qualified, but all should avoid quarrels and litigation. A child born on this day, although disposed to be fractious and headstrong, may achieve its best success in the employment of others. Monday's horoscope promises some very interesting developments, especially in the way of renewed operations in matters long at a standstill. These may feel the spur of a powerful move on to the desired results with proportionate financial rewards. Increase and gain with

The Most Beautiful Woman

(Crawf. C. Slack.)

The most beautiful woman in all the world, why search her in distant places, When she's here, and there, and everywhere, with all of her charms and graces, True, Art has selected and painted a few which fashion and ease have provided, And journals have published the pictures of them when judges have met and decided.

Who are the most beautiful women of earth? I cannot answer that for others, But to me the most beautiful woman on earth, is the sweetheart, the wife, and the mothers, The most beautiful woman on earth is she, who rivals the stars above you, When she offers her fragrant lips to be kissed, and softly whispers, "I love you."

The most beautiful woman in all the world, why search for her in the highways? You will find her bowed at the shrine of love, down in the common by-ways, There you'll find her guiding the infant mouth to the mother breast pulsating, With an angelic face, and hopeful heart, and a love that is unabating.

There are beautiful women of exquisite form, and famed for their facial beauty, But the women worth while to all the world are the women who do their duty, They who, despite the trials of life, and the press of domestic hurries, Makes home for all a haven of rest at the end of a long day's worries.

The most beautiful woman in all the world is she with the whitened tresses, Who takes her grandchildren on her knee, and comforts with kiss and caresses; The most beautiful woman is anywhere, the spirit of love is around her, And I pity the man who has sought for her in life, but never has found her.

American Dowries. Heiresses marrying Europeans have taken from America dowries amounting to more than \$124,000,000.

The average man is always wondering what others think of him and the chances are the others never give him a thought.
