 DYSENTERY  
 WAS THE CAUSE.**

Dysentery is one of the worst forms of bowel complaint, and hardly any other disease so quickly undermines the strength and brings about a condition of prostration and utter collapse that often terminates fatally.

**DR. FOWLER'S EXTRACT OF WILD STRAWBERRY.**  
 Mr. O. H. McVagh, Mawer, Sask. writes: "About eight years ago I had a severe attack of dysentery. I was sick for three weeks. I weighed 154 lbs., when I took sick and 125 when I got it stopped. I think I tried every medicine on the market, but did not find relief until I used Dr. Fowler's Extract of Wild Strawberry, and one bottle did it. I think there is nothing like it for diarrhoea or dysentery. I always keep some on hand as a person does not know when he will need it."  
 Price, 50c. a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

**Tragedy at Stonecliffe.**  
 At Stonecliffe, Mrs. W. McKenna was killed in a tragic manner. She was a sister of Mrs. G. J. Heney, Fombroke. A man was engaged to bury a couple of large stones on the pathway to one of the outbuildings, and he had dug a hole about five feet deep between them. On Thursday morning the man was not working and after starting the children to school, Mrs. McKenna evidently got down into the hole herself and was doing some work in it when the largest stone weighing about two and a half tons, rolled over on top of her, crushing her against the other rock and it is believed causing instant

**Children Cry for Fletcher's CASTORIA**

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proved.

**What is CASTORIA?**  
 Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. A desirable job for sale will cost a penny instead of the two and three-cent charges last year and the full meal is not to cost more than a nickel. All the food is to be of the very best and prepared and served in an appetizing manner.

**Chicago to Have One Cent Luncheon for Children**  
 Chicago, Sept. 27.—While New York is borrowing millions to start its public schools and explaining why no new school buildings have been erected in four or more years, Chicago is establishing penny lunchrooms in all its schools where pupils may secure a good substantial meal for five cents. This includes soup or beans, choice of two sandwiches, meat or potatoes, a cup of milk or chocolate and a dessert. Every thing for sale will cost a penny instead of the two and three-cent charges last year and the full meal is not to cost more than a nickel. The state also is furnishing free text books this year and will do so hereafter so that the vast army of Chicago pupils will have fairly easy going. All the food is to be of the very best and prepared and served in an appetizing manner.

**Quebec's Better Way.**  
 Prohibitionists in this country will no doubt view with a proper contempt the action of Quebec in completely reversing its attitude toward liquor-selling. After giving dry-law enforcement a trial under the local-option law of the dominion, the Canadian city has abandoned this policy, voting by an overwhelming majority to adopt the provincial liquor statute under which the government controls the sale of intoxicants.

Outwardly, of course, this is a repudiation of the high principles of prohibition. In actual effect it means the exchange of conditions which increased drunkenness and gave an incentive to bootlegging for a system of restricted liquor-selling which diminishes the evils of drink without attempting the impossible. Quebec has substituted for hypocrisy and incapacity in prohibition enforcement a plan of regulation which serves the uses of temperance without either Prussianizing the powers of government or making a mockery of them. It is too much to expect that the more intelligent Canadian policy of dealing with the difficult problem of liquor will appeal to zealots here. But the example remains of a government content to obtain the substance of restriction without grasping at the shadow of absolute prohibition.

It has been announced that the Progressive Farmers will select a candidate, among the names suggested being those of E. B. Purtoite, Bloomfield, James R. Anderson, Mountain View and R. W. Ireland, Wellington.

**Motor Boat Destroyed.**  
 Belleville, Sept. 26.—A large motor boat, owned by James E. Ryan, backed and burned to the water's edge involving a loss of \$1,200. The boat was being backed out from an island when the mishap occurred. The occupants reached shore in safety.
