The following property will be paid for by Mrs. Fred M. Lee: The Ranch will be located on a property recently acquired from Charles Ewing, and is situated opposite Mr. Ewing's residence on the Sydenham Road, 8 1/2 miles north of Kingston, and is one of the very choicest locations in the district.

The property is covered with a dense growth of White Pine and Cedar trees, and in this respect is ideal. It is known in the district as "Cedar Arch."

Are you keeping your bowels clean with Cascarets, or merely forcing a passage way every few hours with salts, cathartic pills or castor oil? Machine Gun Turned Down as "Inhuman"

Paris, Oct. 12.—A controversy as to who first invented machine guns is one of the war's aftermaths in France.

Lyons put forth the claim of a Mr. du Perron who, in 1775, is said to have submitted to the young King Louis XVI a military "orgue" which worked on a crank system and could fire 24 bullets "almost simultaneously and consequently could annihilate a whole regiment in a few minutes," according to a contemporary record. The new weapon appeared to be so murderous that the king, and his ministers rejected it, and its inventor was held up as an enemy of humanity.

The powers hostile to France tried to secure the invention, but du Perron refused for patriotic motives and he died in poverty.

Over Love Affair.

Montreal, Oct. 12.—Stated to have become dependent over a love affair, Mary Hoffman, 18 years old, 457 Clarke street, ended her life last night while out driving in an automobile with a girl and man friend.

The Man Who Said: "The proof of the pudding is in the eating" was only half through

He started a good pudding-proof, but he didn't finish it.

There's a lot of trouble in the world from puddings that taste good but don't do good.

They "eat" well, but that ends the recommendation.

Sanitariums are full of pudding-eaters who stopped the test at taste and forgot to inquire whether their food gave the body what it needed—until the body rebelled.

Grape-Nuts is a food that tastes good and does good. The proof of Grape-Nuts begins in the eating and goes on through the splendid service which Grape-Nuts renders as a real food. Grape-Nuts is the perfected goodness of wheat and malted barley—delicious to taste, easy to digest, and exceptionally rich in nourishment for body and brain.

"There's a Reason" for Grape-Nuts
