## 1840--1921 The Nordheimer Piano

A FITTING COMPLEMENT TO THE FINEST HOME

The owner of a beautiful house feels that no piano of lesser merit than the Nordheimer will do. The Nordheimer is the outstanding success among Canadian instruments.

The first Nordheimer Piano, expressed an ideal—it was the leading Piano of its day, and all Nordheimer instruments have been the satisfactory outgrowth of the high aims of the master maker who founded the House of Nordheimer in 1840.

While in the higher priced class, its cost is not so much greater as to place it beyond the reach of the average family—especially when one considers the reasonable terms of payment that we provide for.

Exclusive agents for Nordheimer and Steinway Pianos.
