**Absolute Evidence in Favor of Ground Cylinders**

All high grade automobile engines manufactured in this country as well as in Europe have their cylinder bores finished by grinding. Some of the American cars that might be mentioned are:

- |            |            |                |
|------------|------------|----------------|
| Apperson   | Hudson     | Pierce Arrow   |
| Brewster   | Kissel     | Rolls Royce    |
| Cadillac   | LaFayette  | Standard       |
| Cunningham | Lincoln    | Stevens Duryea |
| Dorris     | Locomobile | Stutz          |
| Franklin   | Marmot     | Templar        |
| Haynes     | Mercer     | Winton         |
| Holmes     | Packard    |                |

In fact, 84% of all the manufacturers of pleasure cars use engines with ground cylinder bores, and 91% of the commercial motors are ground. Head Machines are used exclusively. Automobile owners have one of these Head Cylinder Grinding Machines, and can guarantee first class work. Ground Cylinders is a selling point with many cars.

**EX-SERVICE MEN Women and Dependents Have You A Claim?**

**A Clean Sweep Campaign**

THE Great War Veterans' Association of Canada has undertaken a CLEAN SWEEP CAMPAIGN to secure final adjustment of all outstanding claims of ex-service men, women and dependents.

A special G. W. V. A. Staff, in co-operation with Federal Departments, ensures a thorough review of all claims relating to Army Pay and Allowances, War Service Gratuity, Working Pay, Pensions, D. S. C. R. Pay and Allowances, Hospital treatment, Vocational Training, Insurance, Land Settlement, etc.

STATE your claim clearly and briefly in writing. Indicate regimental number and particulars of service. Present to the nearest G. W. V. A. Secretary or forward to Headquarters of the G. W. V. A. in your Province. A list of Provincial offices is given below. Forms furnished if desired.

**Laugh at the Cold**

"Zero Weather"

has no terrors for the pipeless system. You can get the house warm quickly and economically in the coldest weather with the

**BANNER PIPELESS FURNACE**

The reason is very simple. There are not hundreds of feet of iron pipe to heat up. One centrally-placed floor register has immediately above the furnace—through this pipe, heated, moistened air rises continuously and quickly penetrates to every corner of every room in the house. As there is no wasted heat, there is no wasted coal. Booklet containing hundreds of testimonials from satisfied users yours for the asking. Send for our Booklet "Winter Comfort in Your Home," which will tell you all about the Banner Pipeless Furnace and why it is a better heating system.
