ORDER OF JUDGE MAY SHUT DOWN COAL MINES

Court Order to Prevent Organizing Areas by Labor Brings Revolt.

Indianapolis, Ind., Nov. 2.—A general strike of coal miners in the United States seemed inevitable last night if operators heed the injunction issued by Federal Judge A. B. Anderson, which proscribed the "check-off" of union dues.

A telegram sent late yesterday from headquarters of the United Mine Workers of America after it had been definitely learned that the injunction was not yet in effect, advised union officials to regard discontinuance of the "check-off" as breaking the existing wage agreement.

Despatch of the message culminated a series of conferences between union chiefs and counsel that extended throughout the day. However, there was no indication that any action would be taken at union headquarters to precipitate a strike until after Judge Anderson had declared that his order was not yet effective. He amended the order to provide that it was not in force until after the Borderland Coal Corporation, complainant in the injunction suit, had filed a bond indemnifying the defendants for damages that might result from any acts under the injunction in case of a reversal of his decision.

Previously counsel for both operators and the union had agreed to hasten an appeal with the hope of averting any considerable walkout of workers.

While preparations for the appeal were being made, reports came from the Indiana coal field that five mines were idle in protest against the injunction, and union officials at Terre Haute were considering the formal issuance of a strike order.

Counsel for the union and coal operators will appeal today before Judge Anderson for formal action, appealing his decision.

Indiana Mines Not Working.

Indianapolis, Ind., Nov. 2.—Work in the Indiana coal fields was practically at a standstill today as the result of the walkouts of twenty thousand men employed at three hundred mines in the state.

CITY LEFT IN DARKNESS

As Result of Fire Around the Switch Board at Civic Light Plant.

Fire, which started around the main switch board at the civic light plant, did damage estimated at about \$700 or \$800, at 11.26 o'clock on Tuesday night.

As a result the electric lights all over the city, both in the houses and on the street went out, and citizens who were not in bed early and had to depend on electricity, found themselves left in the dark. Even the firemen, so it is stated, had an interesting time tumbling out of their beds and searching for their boots in the dark when the alarm sounded.

The fire around the switch board made things very interesting for the staff at the light plant. There was certainly some display of fireworks, but luckily no person was injured. The men worked with hand extinguishers until the firemen arrived on the scene, and handled the situation well. Following the outbreak of fire there were short circuits galore. The house lights were out for fifty minutes and the street lights for half an hour.

RECEPTION OF STUDENTS

At Sydenham Street Methodist Hall on Tuesday Evening.

A large number of Queen's students attended the annual reception in Sydenham Street Methodist Church Tuesday evening and were given a hearty welcome by the Church authorities and members. Every year, new students coming into the city for the first time are entertained at these gatherings and are made acquainted with any people belonging to the church, thus establishing friendships which are very helpful to the student throughout their college career. The programme for the evening included games and a promenade. Two features which provoked much merriment were, first a guessing contest in which prizes were distributed, and then had to be opened before the company, and a singing contest in which the guests lined up on each side of the room and sang various songs, in unison or in competition. Among those who assisted were: Miss Woodman, songs; Mrs. Joffe, recitation; Dr. Ettinger, parlor magic; and Mr. Gilpen, violin selections. Dr. A. P. Chown presided. The address of welcome was given by Rev. R. H. Bell. Refreshments were served by the ladies of the church.

Prof. Skelton's Statement Recalled.

Speaking of the Laurier home in Ottawa, the Ottawa Journal says: "Many people have been entertained there, Lady Laurier making of her home a centre for the Liberal following, thereby meriting Professor Skelton's statement that Sir Wilfrid won half his political battle when he married his wife."
