Campbell FOR Kingston

Hon. W. S. Fielding, Finance Min-ister in Laurier Government, says:— There are many reasons why the Meighen Government should not receive the confidence of the people. Not the least among them is the sys-tematic misrepresentation of the tariff question, which Mr. Meighen says is the great issue of the campaign. There never has been, and probably never will be, free trade in this Dom-inion. No platform of any political party proposes free trade. No political leader of any party proposes free trade. In the face of these in-disputable facts, Mr. Meighen, in his speeches, and his Publicity Commit-tee, in its advertisement, represent that free trade is the issue, and ask the electors to vote against free trade. It is amazing that a gentle-man holding the position of Prime Minister of Canada should persist in such palpable misrepresentation, but he and his authorized committee are doing this for the undignified pur-pose of misleading manufacturers and workmen.
